

**Deployment Date: 8/1/2018**

**Hot Fix: cp711\_bmpcopy\_011.zip**

## **MATERIALS/BILLS OF MATERIAL/BMPCOPY/Copy Bills of Material**

**Deltek Defect Tracking Number:**

954021

**Issues Resolved:**

**Description:** When you copied a bill of materials (BOM) and set the **To Assembly Part BOM Status** from **Released** to **Unreleased**, with **BOM Levels** set to **Indented-All**, this application created a BOM with component subassembly set to **Released** even though BOM status was **Unreleased**.

**Customers Impacted:** This defect affects Costpoint users.

**Workaround Before Fix:** Clear the **Component Released** check box on Bills of Material screens.

**Additional Notes:** When you tried to revert the subassembly **Component Released** check box to selected, you encountered the following error message: "A component subassembly cannot have a release flag set to Y when its BOM status is not released."

**Files Updated:**

cp711\_bmpcopy\_011.zip

**Custom Programs Affected:**

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

**To Download the Hot Fix:**

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

**More Information:**
