

Deltek Costpoint HotFix Readme

Released: April 27, 2018

Organization Security

Changes were made to the following applications in the Purchasing module in preparation for the future implementation of the Organization Security feature:

- Update Subcontract Retainage PO Status (POMSCST)
- Archive Purchase Orders (POPARCH)
- View Purchase Order Change Orders (POQCHNG)

These enhancements have no impact on current functionality.

The functionalities of these updates/enhancements are not available until the full feature is released.

The Organization Security feature ensures that proper user access is applied throughout all Materials applications. This enhancement has the following:

- Validation of data entry as authorized for the logged-in user ID
- Filtering of existing records as authorized for the logged-in user ID
- Narrowing the search for records as authorized for the logged-in user ID
- Display of report information is limited to authorized data for the logged-in user ID

System Requirement

These enhancements require cp711_sys_040.zip.

Application JAR Requirements

Domain	Module	Application ID	Application Name	Application File
Materials	Purchasing	POMSCST	Update Subcontract Retainage PO Status	cp711_pomscst_009.zip
Materials	Purchasing	POPARCH	Archive Purchase Orders	cp711_poparch_011.zip
Materials	Purchasing	POQCHNG	View Purchase Order Change Orders (POQCHNG)	cp711_poqchng_008.zip

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on the Deltek Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help » About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed:

1. Click **Help » About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

More Information:

If you have any questions, please contact Deltek Support Center at <https://deltek.custhelp.com>.
