Deltek Costpoint HotFix Readme

Released: February 19, 2016

Enhancements

Update Michigan Worksite Number from Numeric to Alphanumeric

Costpoint now supports Michigan Worksite Number values which contain leading zeroes. For example, **0001**. To accommodate this value, the data type of the **Worksite Number** (EMPL_TAX.MN_WORKSITE_NO) field was changed from numeric to alphanumeric. This enhancement includes updates to the following screens:

Export Payroll Taxes (PRPEXTAX)

The application now includes values with leading zeroes in the **Worksite Number** field of the payroll tax export file.

Manage Employee Information (LDMEINFO)

The **Worksite Number** field in the Taxes subtask now accepts values with leading zeroes.

Manage Employee Taxes (PRMETAX)

The **Worksite Number** field now accepts values with leading zeroes.

Print Data Dictionary Report (SYRDD)

The report displays the following updates in **Worksite Number** field information:

- Changed **Name** from "Minnesota Worksite Number" to "Worksite Number"
- Changed **Type** from **NUMBER (5,0)** to **VARCHAR2(5)**

View Employee Taxes (PRQETAX)

The **Worksite Number** field now displays values with leading zeroes.

Patch Requirements

These enhancements require Costpoint 7.1.1 PATCH2860.

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application JAR
PE	EM	LDMEINFO	Manage Employee Information	cp711_ldmeinfo_009.jar
PE	EM	PRMETAX	Manage Employee Taxes	cp711_prmetax_005.jar
PE	PR	PRPEXTAX	Export Payroll Taxes	cp711_prpextax_005.jar
PE	PR	PRQETAX	View Employee Taxes	cp711_prqetax_002.jar

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at http://support.deltek.com before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, https://deltek.custhelp.com.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.

- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.

- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.

2. Click **Help** > **About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at https://support.deltek.com.
