

Deployment Date: 11/2/2016

Hot Fix: cp711_mepgrfq_003.zip

MATERIALS/MATERIALS ESTIMATING/MEPGRFQ/Create RFQs for Proposals

Deltek Defect Tracking Number:

619231

Issues Resolved:

Description: When you created request for quotes (RFQ) from the Material Estimating module, a new RFQ ID was assigned for each part, supplier, and quantity breakpoint from the proposal; Each was a single line RFQ.

This made the RFQ processing unusable due to the level of processing required for supplier quotes being entered for the RFQs.

Customers Impacted: This defect affects you if you use the Costpoint Materials Estimating module.

Workaround Before Fix: None.

Additional Notes: A manually entered RFQ would be setup with one RFQ ID for each supplier, and a new line for each part number. Additionally, the quantity breakpoints would be on each line, not broken out by line. The automatic creation of RFQs from Material Estimating should follow the same logic.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
