# INTRODUCTION

This document is updated regularly and is based on information provided by BNA. Responsibility for correct withholding of federal, state, and local income taxes remains with the employer. Deltek, Inc. assumes no liability for the accuracy of the information in this document.

## State Abbreviations

The state abbreviations used throughout the system are maintained in the Manage States and Provinces screen in Costpoint System Administration and cannot be changed.

## Special Programming Instructions

This section lists special setup requirements for those states that require a little extra attention and/or have more steps involved in calculating their income tax than the tax table or percentage methods.

## Special Setup Instructions

The states in this section do not have special programming; however, an explanation is needed to understand the correlation between the filing statuses as related to state requirements.

If you use the Print/Reprint Payment Advices and/or Print/Reprint Paychecks applications and you have employees working in a state or states that require the pay rate be included on the check stub, you must select the **Include Pay Rate on Paychecks and Advices** check box in the Manage State Taxes screen for those state(s). If an employee's FLSA status is **Non-exempt** and the **Include Pay Rate on Paychecks and Advices** check box is selected for the employee's SUTA state, the employee's pay rate(s) will be included on the check stub.

## FEDERAL TAX COMPUTATION

### Form W-4 is from 2019 or earlier

#### Percentage Method — Based on Gross Pay

If taxes are based on gross pay, the program follows the steps below to calculate the tax liability:

##### Regular checks:

1. Gross Pay - (Federal Exempt Deductions <sup>a1</sup> + Federal Exempt Pay Types <sup>a2</sup>) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages - (Number of Exemptions x Exemption Amount<sup>b</sup>) = Annual Taxable Wages
3. ((Annual Taxable Wages - **For Taxable Income Over** Amount) x Tax Percentage) + **Base Tax**)<sup>c</sup> = Annual Tax Liability
4. (Annual Tax Liability / Number of Pay Periods per Year) = Tax Liability for Current Period
5. Any **Additional Amount** entered in the Manage Employee Taxes screen is added to the Tax Liability for Current Period.

##### Regular checks: (For Nonresident Aliens)

1. Gross Pay - (Federal Exempt Deductions <sup>a1</sup> + Federal Exempt Pay Types <sup>a2</sup>) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages + Nonresident Alien Addition Amount (from Federal Taxes) = Adjusted Gross Annual Wages
3. Adjusted Gross Annual Wages - (Number of Exemptions x Exemption Amount<sup>b</sup>) = Annual Taxable Wages
4. (((Annual Taxable Wages - **For Taxable Income Over** Amount) x Tax Percentage) + **Base Tax**)<sup>c</sup> = Annual Tax Liability
5. (Annual Tax Liability / Number of Pay Periods per Year) = Tax Liability for Current Period
6. Any **Additional Amount** entered in the Manage Employee Taxes screen is added to the Tax Liability for Current Period.

PLUS Adjustment (calculation for adjustment is below)

1. Gross Pay - (Federal Exempt Deductions + Federal Exempt Pay Types) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages + Nonresident Alien Addition amount (from Federal Taxes) = Adjusted Gross Annual Wages
3. Adjusted Gross Annual Wages - (Number of Exemptions x Exemption Amount) = Annual Taxable Wages
4. (**Base Tax** + ((Annual Taxable Wages - **For Taxable Income Over** Amount) x Plus %)<sup>g</sup> - ((Annual Taxable Wages - **For Taxable Income Over** Amount) x Less %)<sup>h</sup>)<sup>f</sup> = Annual Tax Liability
5. (Annual Tax Liability / Number of Pay Periods per Year) = Tax Liability for Current Period  
(Note: In step 4, the amount calculated for "g" and "h", one would be zero or both would be zero.)

### Bonus checks:

Amount of Bonus x **Supplemental Earnings Tax Percent** in the Manage Federal Taxes screen = Amount to be withheld or, if **00** is entered as **Supplemental Earnings Tax Percent** in the Manage Federal Taxes screen, then the amount of the bonus is added to the employee's annual salary<sup>d</sup> from the Manage Employee Salary Information screen. The top tax rate<sup>e</sup> for this amount is multiplied by the bonus to arrive at the tax withheld. In addition, for all bonuses, the **Additional Amount** field in the Manage Employee Taxes screen is ignored.

- a1:** Deductions that have been set up as **Federal Exempt** in the Federal Taxability subtask of the Manage Deductions screen.
- a2:** Pay Types that have been set up as **Federal Exempt** in Manage Pay Type Taxability screen.
- b:** **Exemption Amount** from the Manage Federal Taxes screen.
- c:** From the appropriate Federal Tax Table.
- d:** Annual Rate from the Manage Employee Salary Information screen.
- e:** The highest percentage for the annual tax liability from the appropriate Federal Tax Table is used.
- f:** Withholding Table for Nonresident Alien adjustment from Manage Advance Earned Income Credit Tables (PRMEIC)

## Form W-4 is from 2020 or later

### Percentage Method — Based on Gross Pay

If taxes are based on gross pay, the program follows the steps below to calculate the tax liability:

#### Regular checks:

1. Gross Pay - (Federal Exempt Deductions <sup>a1</sup> + Federal Exempt Pay Types <sup>a2</sup>) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages - (Adjusting Amount Multiplier <sup>b1</sup> x Exemption Amount<sup>b2</sup>) + Other Income Amount <sup>b3</sup> + Deduction Amount <sup>b4</sup> = Annual Taxable Wages
3. (((Annual Taxable Wages - **For Taxable Income Over** Amount) x Tax Percentage) + **Base Tax**<sup>c1</sup> - ((Number of Federal Dependents <sup>c2</sup> x Qualifying Children under 17 Amount) + (Number of Federal Other Dependents <sup>c3</sup> x Other Dependents Amount) - Other Tax Credit Amount <sup>c4</sup> = Annual Tax Liability
4. (Annual Tax Liability / Number of Pay Periods per Year) = Tax Liability for Current Period
5. Any **Additional Amount** entered in the Manage Employee Taxes screen is added to the Tax Liability for Current Period.

#### Regular checks: (For Nonresident Aliens)

1. Gross Pay - (Federal Exempt Deductions <sup>a1</sup> + Federal Exempt Pay Types <sup>a2</sup>) x Number of Pay Periods per Year = Gross Annual Wages
2. Gross Annual Wages + Nonresident Alien Addition Amount (from Federal Taxes) = Adjusted Gross Annual Wages
3. Adjusted Gross Annual Wages - (Adjusting Amount Multiplier <sup>b1</sup> x Exemption Amount<sup>b2</sup>) + Other Income Amount <sup>b3</sup> + Deduction Amount <sup>b4</sup> = Annual Taxable Wages

4. 
$$(((\text{Annual Taxable Wages} - \text{For Taxable Income Over Amount}) \times \text{Tax Percentage}) + \text{Base Tax})^{c1} - ((\text{Number of Federal Dependents} \times \text{Qualifying Children under 17 Amount }^{c2}) + (\text{Number of Federal Other Dependents} \times \text{Other Dependents Amount }^{c3}) - \text{Other Tax Credit Amount }^{c4}) = \text{Annual Tax Liability}$$
5. 
$$(\text{Annual Tax Liability} / \text{Number of Pay Periods per Year}) = \text{Tax Liability for Current Period}$$
6. Any **Additional Amount** entered in the Manage Employee Taxes screen is added to the Tax Liability for Current Period.

#### Bonus checks:

Amount of Bonus x **Supplemental Earnings Tax Percent** in the Manage Federal Taxes screen = Amount to be withheld or, if **00** is entered as **Supplemental Earnings Tax Percent** in the Manage Federal Taxes screen, then the amount of the bonus is added to the employee's annual salary<sup>d</sup> from the Manage Employee Salary Information screen. The top tax rate<sup>e</sup> for this amount is multiplied by the bonus to arrive at the tax withheld. In addition, for all bonuses, the **Additional Amount** field in the Manage Employee Taxes screen is ignored.

- a1:** Deductions that have been set up as **Federal Exempt** in the Federal Taxability subtask of the Manage Deductions screen.
- a2:** Pay Types that have been set up as **Federal Exempt** in Manage Pay Type Taxability screen.
- b1:** **Adjusting Amount Multiplier** from the Manage Federal Taxes screen.
- b2:** **Exemption Amount** from the Manage Federal Taxes screen.
- b3:** **Other Income Amount** from the Manage Employee Taxes
- b4:** **Deduction Amount** from the Manage Employee Taxes
- c1:** From the appropriate Federal Tax Table.
- c2:** **Qualifying Children under 17 Amount** from the Manage Federal Taxes screen.
- c3:** **Other Dependents Amount** from the Manage Federal Taxes screen.
- c4:** **Other Tax Credit Amount** from the from the Manage Employee Taxes
- d:** Annual Rate from the Manage Employee Salary Information screen.
- e:** The highest percentage for the annual tax liability from the appropriate Federal Tax Table is used.

## STATE TAX COMPUTATIONS

Deltek Costpoint uses three methods to compute state income taxes. These methods are determined in the **Tax Based On** field in the Manage State Taxes screen. If the **Tax Based On** field is left blank, no tax is calculated; if you enter **F**, the tax table method for federal withholding is performed; and if you enter **G**, the tax table method for gross pay is used.

If **Tax Based On** is left blank in the Manage State Taxes screen, no tax will be calculated unless an override amount is specified in the **Override Amount** field in the Manage Employee Taxes screen.

### Tax Table Method — Based on Federal Withholding

If taxes are based on federal withholding, the program will annualize the federal withholding amount and perform a tax table lookup using the annualized federal withholding amount. The program does not use state deductions or exemptions for this method. After arriving at an annual tax liability, the program divides the annual tax liability by the number of pay periods in a year to arrive at the current calculated tax deduction. Any additional state tax is added as specified in the Manage Employee Taxes screen.

### Tax Table Method — Based on Gross Pay

If taxes are based on gross pay, the program follows the steps below to calculate the tax liability:

#### Regular checks:

	Calculation	Related Screens
	Gross Pay for Pay Period	Manage Payroll Records - Pay Types subtask
Less	State Tax Exempt Pay Type Amount (ex. Medical reimbursement)	Manage Pay Type Taxability
Less	State Tax Exempt Deduction Amount (ex. 401(k) and Cafeteria Plans)	Manage Deductions
Times	Pay Frequency Monthly: 12 Semi-Monthly: 24 Bi-Weekly: 26 Weekly: 52	Manage Pay Periods
Equals	Annualized Gross Wages	
Less	Age Exemption Amount  Age exemption amount is the <b>Amount per Credit/ Exemption</b> if all of the following are true: <ul style="list-style-type: none"> <li>Annualized Gross Wages is greater than <b>Amount per Credit/ Exemption</b></li> <li>Employee's age is between <b>Age Limit 1</b> and <b>Age Limit 2</b></li> </ul> Otherwise withholding tax will be set to <b>0.00</b> if all of the following are true: <ul style="list-style-type: none"> <li>Annualized Gross Wages is less than or equal to <b>Amount per Credit/ Exemption</b></li> <li>Employee's age is between <b>Age Limit 1</b> and <b>Age Limit 2</b></li> </ul>	Manage State Tax Withholding Adjustments

	Calculation	Related Screens
	<p>Employee's age will be determined using Birth Date in Manage Employee Information screen as of December 31 of the tax year.</p> <p><i>Note: Applicable to Puerto Rico</i></p>

## State Withholding Filing Status Updates

- **Costpoint 7.0.1:** Released with 7.0.1 System JAR 049 on April 13, 2017
- **Costpoint 7.1.1:** Released with 7.1.1 System JAR 028 on April 27, 2017

**System JAR 049 for Costpoint 7.0.1 and System JAR 028 for Costpoint 7.1.1** introduced a much needed change to the State Filing Statuses in Costpoint. Prior to this update, the State Filing Statuses in Costpoint did not always match the statuses from the state's W-4 form. To address this issue, each state's actual filing statuses have been added to Costpoint, providing more ease in data setup as Payroll Administrators may now assign the filing status chosen by the employee on his/her State W-4 form.

For example, if a Missouri employee selected 'Married Spouse Works' on his/her MO W-4 form, the Payroll Administrator had to assign a **State Filing Status** of '1' (Misc Status 1) to that employee in Costpoint.

With this update, the Payroll Administrator will now be able to select and assign a Missouri State Filing Status of 'MARRIED DUAL INCOME' (Married with both spouses working) to that employee.

State Name	State	Filing Status	Description
Missouri	MO	EXEMPT	Exempt from state taxes
Missouri	MO	HEAD OF HOUSEHOLD	Head of Household
Missouri	MO	MARRIED 1 INCOME	Married with one spouse working
Missouri	MO	MARRIED DUAL INCOME	Married with both spouses working
Missouri	MO	SINGLE	Single

To implement this enhancement, you must run the Update State Filing Statuses application in the **Costpoint People » Payroll » Payroll Utilities** menu.

PLEASE ENSURE THAT YOUR DATA HAS BEEN BACKED UP BEFORE RUNNING THIS PROCESS.

Running this toolkit will change Employees' current withholding status from either Married, Single, Both, Head of Household, Misc 1, Misc 2, Misc 3 or Misc 4 to a longer, more descriptive withholding status for their state that corresponds to the original one. The report must be run before updating to ensure the statuses are being mapped correctly. Once the toolkit is run, all tables that contain state withholding statuses will be updated. This includes all Employee tax screens as well as any state tax setup screens. This toolkit should only be run once.

This toolkit will also create new Maryland local tax table records with 0% rates so that any Employee set up with Maryland local taxes will no longer have any local tax withheld. All Maryland taxes will now be withheld at the state level.

If Employee Earnings is selected, only checks dated after 12/31/2016 will be updated.

The Update State Filing Statuses utility will update the following tables with the new state filing statuses:

- **Manage Employee Taxes**

The Update State Filing Statuses application will replace each employee's old state filing status with the new state filing status. For example, if the employee's existing **Withholding State** is 'MO' (Missouri) with a **State Filing Status** of '1' (Employee's filing status is Married and he/she has indicated that his/her spouse *does* work on the MO W-4), the utility will change the employee's **State Filing Status** to 'MARRIED DUAL INCOME' (Married with both spouses working).

Employee Tax records for terminated employees will only be updated if you select the **Update terminated Employees** check box.

Employees assigned to a Maryland Local Tax Code will be updated with the appropriate Maryland state filing status. For example, an employee with a Local Tax Code of 'MCARRL' (Carroll County, MD) and a Filing Status of 'M' (Married) will be updated with a state filing status of 'CARROLL-MARRIED'.

- **Manage Employee Earnings History**

A record of the employee's state filing status as of payroll computation is retained in the Manage Employee Earnings History table. If you would like these historical records to be updated with the new state filing statuses, select the **Update Employee Taxes, Multi-State Taxes, Maryland Local Taxes, and Employee Earnings** option prior to processing. If you would like these historical records to retain the old state filing statuses, select the **Update Employee Taxes, Multi-State Taxes and Maryland Local Taxes** option prior to processing.

- **Maryland Local Tax Tables**

Due to the limited number of old state filing statuses, Maryland tax tables were maintained in the Local Tax Tables. The State Withholding Filing Status Update was designed to move the Maryland tax information out of the Local tax tables and into the State tax tables. Therefore, the Maryland tax information will no longer be maintained in the Local tax tables and will be zeroed out by the Update State Filing Statuses application.

- **ESS Configure State Tax Settings**

The Update State Filing Statuses application will replace any old state filing statuses with the new state filing statuses. This screen is only accessible if you are licensed for Deltek Employee Self Service (ESS).

**Warning:** In order to update the old state filing statuses to the new state filing statuses, you must run the Update State Filing Statuses utility which you can access by going to **People » Payroll » Payroll Utilities** menu. You must run this utility before you can load any tax table updates released by Deltek starting in March 2019. All tax table updates released by Deltek starting in March 2019 will only provide updates for the new state filing statuses.

\*\* Experienced Rhode Island employers that pay the maximum unemployment tax rate make payments based on a higher wage base.

State legislatures meet at various times during the first quarter of the year to rule on the unemployment wage base. Therefore, if you receive information at a later date, go to the Manage State Taxes screen and enter the new limit in the **Unemployment Limit** field.

## 2020 STATE DISABILITY INSURANCE - EMPLOYEE CONTRIBUTION

State Disability Insurance is deducted by setting up a **Locality Code** in the Manage Local Taxes screen with **Tax Based On** as a **Y Method**. Using the same **Locality Code**, enter a record in the Manage Local Standard Deductions screen with a filing status of **Both** and with **Percent Over Excess**, **Minimum**, and **Maximum** equal to **0.00**.

Using the same locality code and filing status, enter a record in the Manage Local Tax Tables screen with the first line in **For Taxable Income Over** equal to **0.00**, **Base Tax Plus** equal to **0.00**, and **Percent of Excess** equal to the **Employee Tax Rate** listed below. The second line of this table should be entered with **For Taxable Income Over** equal to the **Annual Taxable Wage Base** listed below, **Base Tax Plus** equal to the **Maximum Amount** listed below, and **Percent of Excess** equal to **0.00**.

State	Annual Taxable Wage Base	Employee Tax Rate (%)	Maximum Amount
California	\$122,909.00	1.00%	\$1,229.09
Hawaii	Based on Employee's Weekly Rate	0.5% <sup>(1)</sup>	\$291.20

Puerto Rico	\$9,000.00	0.30%	\$27.00
Rhode Island	\$72,300.00	1.30%	\$939.90

<sup>(1)</sup> Not to exceed \$5.60 per week: Maximum weekly wage base is \$1,119.44

<sup>(2)</sup> Not to exceed \$.60 per week.

## 2020 STATE UNEMPLOYMENT INSURANCE-EMPLOYEE CONTRIBUTION

State Unemployment Insurance is deducted by setting up a **Locality Code** in the Manage Local Taxes screen with **Tax Based On** as a **Y Method**. Using the same locality code, enter a record in the Manage Local Standard Deductions screen with a filing status of **Both** and with **Standard Deduction %**, **Minimum**, and **Maximum** equal to **0.00**.

Using the same locality code and filing status, enter a record in the Manage Local Tax Tables screen with the first line in **For Taxable Income Over** equal to **0.00**, **Base Tax Plus** equal to **0.00**, and **Percent of Excess** equal to the **Employee Tax Rate** listed below. The second line of this table should be entered with **For Taxable Income Over** equal to the **Annual Taxable Wage Base** listed below, **Base Tax Plus** equal to the **Maximum Amount** listed below, and **Percent of Excess** equal to **0.00**.

State	Annual Taxable Wage Base	Employee Tax Rate (%)	Maximum Amount	Fund Name
Alaska	\$39,900.00	0.50%	199.50	Unemployment
New Jersey	\$134,900.00	0.16%	215.84	Family Leave Insurance (FLI)
New Jersey	\$35,300.00	0.3825%	135.02	Unemployment & Health Care
New Jersey	\$35,300.00	0.0425%	15.00	Work Force Development/ Supplemental Workforce Fund <sup>(1)</sup>
Pennsylvania	None	0.06%	None	Unemployment

<sup>(1)</sup> Legislation for New Jersey requires that the amounts of these funds be reported separately in Box 14 of the W-2. Therefore, this must be set up as a deduction. You have the option of setting up each fund as its own deduction or combining the two into one deduction. We suggest that you combine the two into one deduction; then you need to use only one line in Box 14.

## Pennsylvania (PA)

### State Information

#### Pennsylvania Employer Withholding Information Guide

<https://www.revenue.pa.gov/FormsandPublications/FormsforBusinesses/EmployerWithholding/Documents/rev-415.pdf>

Pennsylvania does not have a form similar to the Federal W-4. Pennsylvania state withholding is based on a flat tax rate. There are no allowances based on dependents claimed, marital status, age, etc.
