MATERIALS/INVENTORY/INMPAISS/Enter Issues

[Deltek Defect Tracking Number:](#)

785372

[Issues Resolved:](#)

Description: In Web Integration Console (WIC), you encountered an error because the allocated inventory flag did not default properly.

Customers Impacted: This defect affects users of WIC.

Workaround Before Fix:

1. On the Enter Issues to Project/Account/Org or PO (INMPAISS) screen, enter the reservation.
2. Click **Autoload**.
3. Enter the issue quantity.
4. Enter the location.
5. Load lot information.
6. Save the record.

In WIC:

Set **Allocated Inventory** to N when there is no applicable information in RES_LN_INVT_ALLOC table. Or provide **Allocated Inventory** (e.g. N or Y) in the XML file when running WIC process.

Additional Notes: Records are saved successfully when creating records via INMPAISS UI.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
