Hot Fix: cp711_cmnlb_PCMMOLIB_010.zip; cp711_pcmmomnt_030.zip

MATERIALS/PRODUCTION CONTROL/PCMMOMNT/Enter Manufacturing Orders

Deltek Defect Tracking Number:

934100

Issues Resolved:

Description: When you completed a work order alteration in MES, and it was accepted in Costpoint, Costpoint reflected the alteration, except for the changes made in the requirement component part quantities on the Requirements subtask.

Customers Impacted: This defect affects users who make work order alterations in Costpoint.

Workaround Before Fix: None.

Additional Notes: This is related to a defect (903338 with PATCH3439) with fix that allows manufacturing order (MO) requirement quantities to be less than the manufacturing bills of material (MBOM) quantities as long as the requirement quantities are not below the needed quantities in MES routing components.

MATERIALS/PRODUCTION CONTROL/PCMMOMNT/Enter Manufacturing Orders

Deltek Defect Tracking Number:

935227

Issues Resolved:

Description: This application has been updated to allow you to select **Export to Manufacturing Execution** and allow you to charge a timesheet line against a manufacturing order (MO) operation line.

Customers Impacted: This change affects you if you need to charge timesheet lines directly to MO operation lines.

Workaround Before Fix: Charge timesheet lines directly to the MO and not to operations.

Additional Notes: None.
