

Deltak Costpoint HotFix Readme

Released: March 11, 2015

Enhancements

Support for Same Home and Mailing Address

Costpoint - SilkRoad Integration was enhanced to support users that do not use a supplemental address as a separate home address for employees. The following check box was added to the Transfer SilkRoad Data screen for this update:

Home Address same as Mailing Address - Select this check box if you use the same address for both the mailing and home address of the employee. The integration process will apply the following when you select this check box:

- **Costpoint to SilkRoad integration** - Costpoint mailing address will be assigned as SilkRoad mailing and home address. Costpoint work address will be assigned as SilkRoad work address.
- **SilkRoad to Costpoint integration** - SilkRoad home address will be assigned as Costpoint mailing address and no home address will be created on the Additional Addresses subtask of the Manage Employee Information screen. SilkRoad work address will be assigned as Costpoint work address.

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
