

Deployment Date: 9/24/2018

Hot Fix: cp711_sys_045.zip; cp711_meqitem_001.zip; cp711_cmnlb_POMPOLIB_002.zip; cp711_cmnlb_MMDLVRYSCHDLIB_002.zip

MATERIALS/MATERIALS ESTIMATING/MEQITEM/Item Purchasing Information Inquiry

[Deltek Defect Tracking Number:](#)

982652

[Issues Resolved:](#)

Description: A separate application ID, MEQITEM, has been created for View Item Purchasing Information in the Materials Estimating (ME) module. This is to allow you to assign a different organization security group/profile for the View Item Purchasing Information screen in the ME module.

Customers Impacted: This change affects users who use organization security feature.

Workaround Before Fix: None.

Additional Notes: If you access the View Item Purchasing Information screen via POQITEM and your module rights are under the Purchasing (PO) module, you now have to set up user rights and profiles for the View Item Purchasing Information screen using the MEQITEM application ID. However, license for both screens remain under the PO module.

MATERIALS/MATERIAL REQUIREMENTS PLANNING/MRQPINV/View Part Inventory

[Deltek Defect Tracking Number:](#)

977860

[Issues Resolved:](#)

Description: A separate application ID, MRQPINV, has been created for View Part Inventory in the Materials Requirement Planning (MR) module. This change allows you to assign different organization security group/profile for the View Part Inventory in the MR module.

Customers Impacted: This change affects users who use organization security feature.

Workaround Before Fix: Assign the same organization security profile code for each of the modules assigned to View Part Inventory where organization security is already enabled.

Additional Notes: If you access the View Part Inventory screen via INQPINV and your module rights are under the IN module, you now have to set up user rights and profiles for the View Part Inventory screen using the MRQPINV application ID. However, license for both screens remain under the IN module.

MATERIALS/MATERIAL PRODUCTION SCHEDULING/MSQPINV/View Part Inventory

[Deltek Defect Tracking Number:](#)

977869

[Issues Resolved:](#)

Description: A separate application ID, MSQPINV, has been created for View Part Inventory in the Master Production Scheduling (MS) module. This is to allow you to assign a different organization security group/profile for the View Part Inventory in the MS module.

Customers Impacted: This change affects users who use organization security feature.

Workaround Before Fix: Assign the same organization security profile code for each of the modules assigned to View Part Inventory where organization security is already enabled.

Additional Notes: If you access the View Part Inventory screen via INQPINV and your module rights are under the IN module, you now have to set up user rights and profiles for the View Part Inventory screen using the MSQPINV application ID. However, license for both screens remain under the IN module.

MATERIALS/PRODUCTION CONTROL/PCQPINV/View Part Inventory

Deltek Defect Tracking Number:

977873

Issues Resolved:

Description: A separate application ID, PCQPINV, has been created for View Part Inventory in the Production Control (PC) module. This is to allow you to assign different organization security group/profile for the View Part Inventory in the PC module.

Customers Impacted: This change affects users who use organization security feature.

Workaround Before Fix: Assign the same organization security profile code for each of the modules assigned to View Part Inventory where organization security is already enabled.

Additional Notes: If you access the View Part Inventory screen via INQPINV and your module rights are under the IN module, you now have to set up user rights and profiles for the View Part Inventory screen using the PCQPINV application ID. MATERIALS/PROCUREMENT PLANNING/PPQITEM/Item Purchasing Information Inquiry

Deltek Defect Tracking Number:

982656

Issues Resolved:

Description: A separate application ID, PPQITEM, has been created for View Item Purchasing Information in the Procurement Planning (PP) module. This is to allow you to assign a different organization security group/profile for the View Item Purchasing Information screen in the PP module.

Customers Impacted: This change affects users who use organization security feature.

Workaround Before Fix: None.

Additional Notes: If you access the View Item Purchasing Information screen via PPQITEM and your module rights are under the Purchasing (PO) module, you now have to set up user rights and profiles for the View Item Purchasing Information screen using the PPQITEM application ID. However, license for both screens remain under the PO module.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
