Deployment Date: 5/19/2017

Hot Fix: cp711_ldpclhf_011.zip

PEOPLE/LEAVE/LDPCLHF/Compute Leave Accruals

Deltek Defect Tracking Number:

714093

Issues Resolved:

Description: The leave accrual calculation was incorrect for an employee with multiple leave types. This occurred when the leave types were associated to leave codes with different leave modifiers that have different **Overtime Rule** settings. Specifically, the issue occurred when processing multiple leave types because the tagging of timesheet lines to exclude from accrual (due to the list or overtime rule) was not reset before processing the next leave type for a given employee.

Customers Impacted: This defect affects Costpoint Leave users.

Workaround Before Fix: None.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
