MATERIALS/INVENTORY/INMPAISS/Enter Issues

Deltek Defect Tracking Number:

725719

Issues Resolved:

Description: Read-only access on the Enter Issues to Project/Account/Org or PO screen did not have the ability to query by the purchase order (PO) number.
Customers Impacted: This defect affects you if you use the Costpoint Inventory module.
Workaround Before Fix: When in read-only mode, hidden fields are more restrictive and certain fields are not available in this mode.
Entering the screen, the header PO field is not displayed. Use **Query** and the **Issue Type = Issue to Purchase Order**. Once that set of data is returned, use the secondary query to find the data you need to look at in read-only mode.
Additional Notes: None.
