Overview

Welcome to Deltek Costpoint 8.0.27 Release Notes. These release notes contain a summary of the following:

- Enhancements
- Software Issues Resolved

These release notes address all of the modules associated with Deltek Costpoint 8.0.27, some of which your firm may not use. Skip the sections that do not apply to your implementation of Deltek Costpoint.

New Release Notes Format

Costpoint Release Notes are now delivered in HTML format and can be viewed at this link: <https://help.deltek.com/product/Costpoint/8.0/ReleaseNotes>. This web page contains links to the Release Notes for each release version as well as links to the Costpoint online help, Costpoint Information Center (CIC), and Costpoint Cloud Information Center (CCIC).

We will continue to provide PDFs for the next few releases as we transition to the new format.

If you have feedback or questions, please send an email to DeltekDocumentationFeedback@deltek.com.

Installation Notes

The MR installer reads all Costpoint systems selected. If a Time & Expense segment exists, the installer searches for the presence of a Time & Expense license in that Costpoint system, and lists any systems for which there is no Time & Expense license.

If a prompt displays, review the list and select the appropriate action:

- Using the Apply License utility in the Costpoint DB Wizard, apply a Time & Expense license to the Costpoint system(s) in the list for which the connected Time & Expense segment is not for a stand-alone, external connection that should have a Time & Expense license applied to it.
Any stand-alone, external Time & Expense segments for which a Time & Expense license is not present, or for which the Time & Expense segment is for a Time & Expense 901 system, will not have the MR Time & Expense patches, SPs, or Data Dictionary files applied to them. These Time & Expense segments are marked as External TESS segments.
- If all the systems listed are actual stand-alone, external (non-licensed) Time & Expense segments and you want them converted to external segments without applying the MR to them, click **OK** to proceed.

If you are unsure, please contact Deltek Costpoint Technical Support.

Enhancements

This section includes summaries of the enhancements made to existing features in this release.

Regulatory

State

Arkansas 2022 Tax Table Updates

The Department of Finance and Administration of Arkansas updated the withholding methods of the state. The new withholding formula takes effect October 1, 2022. The following are the updates:

- The highest tax rate used decreased from 5.5% to **4.9%** and the tax brackets used were adjusted.
- The formula's standard deduction increased from \$2,200 to **\$2,270**.
- The withholding instructions were updated to decrease the supplemental withholding rate to **4.9%**.

This release updates the following screens to support the new withholding formula and latest tax updates of Arkansas:

- Manage Payroll Records
- Compute Payroll

Attention: For more information, refer to:

- **Withholding Formula:**
<https://www.dfa.arkansas.gov/images/uploads/incomeTaxOffice/whformula.pdf>
- **Withholding Instructions:**
<https://www.dfa.arkansas.gov/images/uploads/incomeTaxOffice/withholdInstructions.pdf>

Note: This enhancement requires patch dbc_800_10983.

District of Columbia SUTA Electronic Filing ICESA Record Types A, E, And S Updates in DCETS

The Department of Employment Services (DOES) will transition to their modernized tax system, District of Columbia Employer Tax System (DCETS), for UI Tax program services. The new system will replace the existing Employee Self Service Portal (ESSP) in January 2023 according to the state. The SUTA file updates for the District of Columbia will be reflected if the system date in Costpoint is from January 2023.

The following will be implemented in the new system:

- Employers will be allowed to report out-of-state quarterly taxable wages submitted to U.S. states other than the District of Columbia (Including the 50 U.S. States, Puerto Rico, and the U.S. Virgin Islands).
- Employers will be required to report the state to which any reported Out-of-State Taxable Wages are paid.

Enhancements

- Within the Wage Amendment Process, employers will be required to select a reason for the amendment at the employee level and provide a narrative description when “Other” is reported as the reason. The new requirements are detailed within the individuated sections for each file type.

According to DOES, the requirements for the following have been updated:

- **Employer ICESA Record Type A:** Fields 208–275
- **Employer ICESA Record Type E:** Fields 149–158
- **Employer ICESA Record Type S:** Fields 135–275

Attention: Please see the [DCETS Wage File Format Specifications](#) for the complete ICESA file layout and the file layouts of other available file types (EFW2, XML, and CSV).

Note: This enhancement requires patch dbc_800_10801.

Manage SUTA Quarterly Reporting Data (PRMQRD)

The Manage SUTA Quarterly Reporting Data screen features the following updates:

- The screen provides the following new fields:

Field	Description
Adjustment SUTA State	Enter, or click lookup to select, the state to which you will report the amendment.
Adjustment Reason Description	This field displays the description of the code you entered in the Adjustment Reason Code field.

- The Adjustment SUTA State Code (ADJ_SUTA_STATE_CD) column was added to the SUTA Quarterly Reporting Data (SUTA_QTR_RPT_DATA) table.
- The SUTA State Code (SUTA_STATE_CD) column was added to the SUTA Adjustment Reason Code (S_SUTA_ADJ_RSN_CD) system table.
- The Data for District of Columbia was added in the S_SUTA_ADJ_RSN_CD system table.
- The lookup function in the **Adjustment Reason Code** field was updated based on the Adjustment SUTA State.
- The screen displays an error if the explanation text exceeds 25 characters for the District of Columbia.

Manage SUTA Tax File Data (PRMSMM)

The Manage SUTA Tax File Data screen provides the following validations for the District of Columbia:

- An error displays when the value for location exceeds three characters. The field Location/Unit (S 162–164) has a length of only three characters in the Employer ICESA file layout.
- An error displays when the **E-mail** field is blank.

Create Quarterly SUTA Tax File (PRPSMM)

The Create Quarterly SUTA Tax File screen now supports the updated ICESA records A, E, and S for the District of Columbia.

Florida 2022 SUTA Electronic Filing

The Florida Department of Revenue published the reemployment tax XML specifications package, which provides enhancements that include the ability to file reports with no employees.

The following requirement to report at least one employee has been removed in XML schema v2022 1.0:

- At least one employee must be reported. If there are no employees to report, enter “Jane Doe”, with a Social Security number of “999999999”.

To support the state requirements, the Create Quarterly SUTA Tax File screen can now generate an XML file with no employees.

Attention: For more information, refer to:

- [Florida Dept. of Revenue - Software Developer Information and Specifications](#)
- [Reemployment Tax XML Package](#)

Virginia 2022 Tax Table Updates

Virginia updated their withholding methods to implement an increase to the standard deduction from \$4,500 to **\$8,000**. The new withholding methods take effect on October 1, 2022. The withholding formula was otherwise unchanged, except for the increase to the standard deduction.

This release applies updates to the following screens:

- Manage State Taxes
- Manage State Standard Deductions
- Manage State Tax Tables
- Manage State Tax Withholding Adjustments

Attention: For more information, refer to the *Income Tax Withholding Guide for Employers*: <https://www.tax.virginia.gov/sites/default/files/vatax-pdf/employer-withholding-instructions.pdf>.

Note: This enhancement requires patch dbc_800_10995.

Time & Expense

Update to Support Mobile T&E Leave Request Notifications

The web version of Time & Expense was updated to ensure that when leave requests are submitted from Mobile T&E, the supervisor responsible for approving leave is the only one to receive the task notification when the employee is assigned more than one supervisor.

Software Issues Resolved

Descriptions of Software Issues

You will notice that the descriptions of some software defects contain extra information, including ways to work around the defects. For the most part, these issues were addressed before this release through hot fixes, and the additional information was developed to help you decide whether or not you needed to install the hot fixes.

When you install this release, you must install all fixes in the release; you cannot choose to install some and not others. Nevertheless, this additional information has been included in case you instituted some of the workarounds and can now stop using them, or you simply want more background information about the defect repairs.

Contracts

[Contracts » Manage Contracts](#)

Defect 1727831: A new field, **Customer Name**, has been added to the Customers/Contacts tab of this screen to display the name of the selected **Customer**.

Framework

[Framework](#)

Defect 1742262: When a Costpoint Employee Name included a special character and was exported to Talent Management, the special character was replaced with a question mark in Talent Management.

[Runtime » Client](#)

Defect 1753686: When you opened timesheets in the progressive web app (PWA), you could not see timesheet rows past the 20th row in List view. You had to switch to Landscape mode to see all the timesheet rows.

Materials

[Material Requirements Planning » Manage Detailed Part Schedule](#)

Defect 1737640: When you generated a transfer inventory reservation and moved from one warehouse to another, the detailed part schedule displayed supply and demand in one warehouse instead of separating them.

[Material Requirements Planning » Update Material Requirements Plan](#)

Defect 1746325: The application did not display the correct Material Requirements Planning (MRP) demand for the inventory transfer reservation.

People

[Labor » Manage Correcting Timesheets](#)

Defect 1495842: Negative recast lines caused the following hard error: "The Negative Timesheet line would cause the unrelieved amount balance for the total MO to go negative."

[Labor » Manage Timesheets](#)

Defect 1495841: Negative recast lines caused the following hard error: "The Negative Timesheet line would cause the unrelieved amount balance for the total MO to go negative."

Defect 1653288: The application did not display an error/warning message when you added a timesheet line with insufficient leave and then saved the timesheet. This issue occurred when the leave type's **Floor Edit Method** was set to **Error** or **Warning**.

[Payroll » Compute Payroll](#)

Defect 1724158: Before the application applied the ceiling to the non-qualifying deduction, it subtracted the non-qualifying deduction amounts from the base of the qualifying deduction amounts.

Planning

[Administration » Configuration Settings](#)

Defect 1749983: Errors related to raw cost occurred during calculations of annual salary amounts for part-time employees.

[Organization Budgeting » Profit and Loss by Organization](#)

Defect 1732956: EALC_YTD values were omitted from Profit and Loss reports, resulting in variances.

[Project Budgeting » Project Budgets / EACs](#)

Defect 1726201: Invalid Project Labor Categories (PLCs) were saved into a project.

Defect 1740083: You encountered unknown values that affected OVER CEILING - FUNDING calculations.

Defect 1743331: BI Report tables were multiplying Revenue/Costs due to different PAG codes between Project Budgets and New Business Budgets.

[Project Budgeting » Project Labor Analysis](#)

Defect 1715979: You encountered problems in Batch Mode processing of Import Budget/EACs from Excel, and the application did not communicate with View Action and Report Status.

Projects

[Project Setup » Manage Modifications](#)

Defect 1731922: The values saved by Costpoint were incorrect when the entered **Cost** and **Fee** had decimals.

[Project Setup » Manage Project User Flow](#)

Defect 1725342: When you used a project type with the **Default to Owning Org** checkbox selected, and then you entered a new record using **Paste Data from Excel**, the value of the checkbox became cleared on the pasted data.

Time & Expense

[Expense » Expense Report](#)

Defect 1755136: When you saved an expense report, there was an extra space between the ER signature text box and the **I Agree** checkbox.

Appendix: For Additional Information

Deltek Support Center

The Deltek Support Center is a support web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

Attention: For more information regarding Deltek Support Center, refer to the online help available from the web site.

Access Deltek Support Center

To access the Deltek Support Center:

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

Note: If you forget your username or password, you can click the **Need Help?** button on the login screen for help.

About Deltek

Better software means better projects. Deltek delivers software and information solutions that enable superior levels of project intelligence, management and collaboration. Our industry-focused expertise makes your projects successful and helps you achieve performance that maximizes productivity and revenue. www.deltek.com
