Deltek Defect Tracking Number:

619181

Issues Resolved:

Description: The application did not allow you to post an **R** type payroll edit record which was not based on a timesheet. This can occur when the payroll edit record was generated based on a benefit reimbursement or a flexible spending account (FSA) reimbursement.

Customers Impacted : This defect affects Costpoint Payroll users.

Workaround Before Fix: Delete the payroll record which was created in the Compute Payroll process, and then use a **X** record, which does not require a timesheet.
