What's in Costpoint 8.2?

Full Visibility into Project Performance

- Leverage predictive analytics and artificial intelligence capabilities to identify projects at risk and adjust quickly.
- Integrated operations provide real-time visibility from project start through closeout.
- Visual dashboards and industry-specific reports deliver critical project insight.

Total Project and Accounting Management

- Streamline project, people, and financial management with an all-in-one solution.
- Automate your project set up and invoicing processes.
- Build flexible project structures and unlimited cost pools.

Manage Labor and Expense

- Automate time and expense processes via the mobile apps to support compliance and create clear audit trails.
- Easily capture and upload your receipts for expense reports in just a few clicks.
- Access mobile time & expense capabilities with a native app from an app store or the Costpoint responsive design progressive web app (PWA).

Improve Cash Flow with Automation & Accuracy

- Invoice faster with built-in DCAA and compliance support, workflows, and reporting.
- Simplify cost pools, indirect rates, and financial intelligence by managing down to the project level.
- Track your costs, contracts, forecasts and more in one system for consistent and reliable information.

Enhance the User Experience

- Leverage out-of-the-box user profiles.
- Utilize hundreds of industry-specific canned reports and dashboards.

Compliance-Centric Support

- Out of the box capabilities support DCAA requirements and FAR, CAS, DCMA and ASC compliance needs.
- Costpoint Cloud solutions implement NIST 800-171 controls, which are foundational to CMMC Level 3.
- Costpoint GovCon Cloud Moderate solution supports NIST 800-171 controls and aligns with FedRAMP Moderate controls
