## Overview

This document contains a summary of the following:

- Major New Features
- Enhancements
- Known Issues

## Pre-Installation Information

Before you begin the installation of Touch Time for GovCon, it is important to understand the information discussed in this section.

The official name of the application is Deltek Touch Time for GovCon. This document only uses it at first mention. The succeeding instances of the application name display Touch Time.

In addition, the application name in the Google Play Store and the Apple App Store displays Touch Time for Deltek GovCon.

---

## Technical Considerations

The following requirements must be met to run Touch Time for GovCon:

- Touch Time works with Deltek Time and Expense 9.0.1 and Hot Fix Bundle #6 or higher. Install Deltek Time and Expense 9.0.1, then install Hot Fix Bundle #6 or higher.
  - Touch Time supports communication with the Time and Expense server via HTTP or HTTPS. Deltek recommends that you use HTTPS protocol in your production deployment. HTTPS encrypts the data in transit.
- 

If you are going to access Touch Time from the Internet, open a port in your firewall to access the Touch Time virtual directory, which will be installed on the IIS server.

---

- You must install Touch Time on an IIS Web server that is installed on Windows 2008, Windows Server 2008 R2, or Windows Server 2012.
- Touch Time supports mobile applications downloaded from the Google Play and the Apple App Store.

## Mobile Device Requirements

The Touch Time application supports mobile devices that run on the following operating systems:

- Apple iOS 5 and higher
- Android 2.3.3 and higher (excluding 3.x)
