PEOPLE/LEAVE/LDPLVREC/Leave Reconciliation

Deltek Defect Tracking Number:

1212309

Issues Resolved:

Description: The application should validate only current leave year data in Employee Leave and Leave History table instead of validating checks in all leave years.

Customers Impacted: This defect affects Costpoint Leave users.

Workaround Before Fix: Manually fix the data in the database.

Additional Notes: This was an issue because when the application processed the data in previous leave years, it generated errors/warnings for missing data in fields that are currently required.
