**Hot Fix: cp711\_hbpaped\_006.zip**

## **PEOPLE/PAYROLL/HBPAPDED/Mass Update Employee Package Deductions**

Deltek Defect Tracking Number:

609361

Issues Resolved:

**Description:** When you selected the **Enable Deduction Priority Functionality** check box on the Configure Payroll Settings screen, and then you processed a Deduction Code that was only flagged as a **Contribution** and with a Deduction Priority of **0** (zero), the screen displayed a warning message. The message indicated that the deduction had same the priority number as another deduction being assigned to the employee. However, the application should not validate the deduction priority when deduction code was only flagged as a **Contribution**.

**Customers Impacted:** This defect affects Costpoint Payroll users.

**Workaround Before Fix:** As a workaround, complete the following steps on the Manage Deductions screen for the deduction code:

1. Select the Deduction flag
2. Set the Priority value to 1-99
3. Clear the Deduction flag
4. Click Save.

**Additional Notes:** You can still run the application process but warnings print for every run.
