**Customers Impacted:** This issue applies to Vision 7.1.

**Workaround Before Fix:** None.

**Additional Notes:** None.

#### Files Updated

Deltek.Framework.Errors.Common.dll

#### Other Applications Affected

#### System File Dependencies

## Known Issues

### Connect for Microsoft Outlook

**Adding a Task to a record in Outlook** – When you try to add a task to a contact from the **More » Assign Task** menu option in the Communicate group of the ribbon, you cannot save it. You receive the message: “Subject, Start Date are required.” even though these fields are populated. Use the **Create Task for Contact** menu option in the Connect group of the ribbon to create and save a task.

### Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

### To Download the Cumulative Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Cumulative Updates folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

### To Install the Cumulative Update:

Run the executable (.exe) file only on your application server, unless additional tiers are specifically noted in the defect descriptions above.

### To Check to See if the Cumulative Update is Installed:

1. Click **Help > About** from the Vision toolbar.
2. Click the **Details** button on the **About Deltek Vision** dialog box.

### More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
