PEOPLE/LABOR/LDMTIME/Enter Timesheets

Deltek Defect Tracking Number:

1056985

Issues Resolved:

Description: When loading timesheet (bonus/commission) transactions using the Web Integration Console (WIC), labor amount errors occurred.

Customers Impacted: This defect affects Costpoint Labor users who load timesheets using WIC.

Workaround Before Fix: None.

Additional Notes: This issue occurred when the **Hours** field (TS_LN___CHG_HRS) object validation was triggered. In this case, the application set the TS_LN__LAB_CST_AMT value to zero. Based from the available XML elements, the application could not re-compute the labor amount.
