

Deltak Time & Expense HotFix Readme

Release Date: October 12, 2018

Enhancement

Database Attachments Conversion Utility

An Expense Report Convert Attachment application was added to **Expense » Expense Utilities**.

This new utility converts attachments stored in the 9.0.1 database to PDFs so that the files are available to users after the upgrade to version 10.0 is complete. The utility should be used during the post-installation process, following the initial upgrade.

This application should be run only after the Alternate File Location has been set up and configured. Instructions for configuring the Alternate File Location are included in the following guide *DeltakTimeandExpense1000PostInstallationConfigurationGuide.pdf*.

When an upgrading customer clicks **Expense » Expense Utilities » Expense Report Convert Attachments**, existing attachments are automatically converted.

The converted files are then automatically stored in the Alternate File Location (**Administration » System Administration » File Management » Manage Alternate File Locations**) for attachments.

The utility includes the following fields:

- **Attachments found in Database** – This is the number of attachments found in the 9.0.1 database.
- **Previously Converted** – This is the number of attachments that were converted in previous runs.
- **Number of Attachments Converted** – This is the number of attachments converted in the current run. For example, if all the attachments found have previously been converted, this field will display “0” because no attachments were found to convert in the current run. Note that the utility run automatically after the screen is opened.

Application JAR Requirements

The following table shows the required application JAR version for the screens affected by this update:

Module	Application ID	Application Name	Application File
Expense	EPMEPRPTCVTATT	Expense Report Convert Attachments	cp711_te_epmexprptcvttatt_001.zip

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the HotFix/Feature Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed:

1. Click **Help > About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
