

VISION 6.1 SP4 Hot Fix: HotFix #017

Accounting/Accounts Receivable/Invoice Review

Deltek Defect Tracking Number:

163669

Issues Resolved:

Description: When there were exceptionally large amounts of data, the Invoice Review failed with a timeout error.

Impact: This defect impacts the performance for Vision 6.1 SP4.

Workaround: None.

Additional Notes/Comments: None.

Files Updated:

Deltek.Vision.ARReview.Client.dll
Deltek.Vision.ProjectPTDReview.Client.dll

Time and Expense/Expense Report

Deltek Defect Tracking Number:

163769

Issues Resolved:

Description: When Amount Data was entered on the Detail screen for the main expense report, the Tax Amount 2 was not calculated when Tax Code 2 was in use.

Impact: This issue impacted entry of expense report when the secondary tax code was enabled.

Workaround: To work around this issue, click **OK** on the Detail screen to update the Report Line Amount. Then, reselect the Tax Code 2 value to force the calculation of the Tax 2 Amount.

Additional Notes/Comments: None.

Files Updated:

Deltek.Vision.Expensekeeper.Client.dll

Configuration/General/User Defined Tabs

Deltek Defect Tracking Number:

164389

Issues Resolved:

Description: In a Multi-lingual environment, a run time error displayed when data values were modified on a user defined drop-down list.

Impact: This defect applies to user defined drop-down lists in a Multi-lingual environment for Vision 6.1 SP4.

Workaround: None.

Additional Notes/Comments: None.

Files Updated:

DeltekVision61SP4HotFix017.sql
Deltek.Vision.SetupCustomTabs.Client.dll

Configuration/General/User Defined Tabs

Deltek Defect Tracking Number:

164404

Issues Resolved:

Description: In a Multi-lingual environment, a run time error displayed when data values were reordered on a user defined drop-down field.

Impact: This defect applies to user defined fields in a Multi-lingual environment for Vision 6.1 SP4.

Workaround: None.

Additional Notes/Comments: None.

Files Updated:

DeltekVision61SP4HotFix017.sql
Deltek.Vision.SetupCustomTabs.Client.dll

Utilities/Advanced Utilities/Data Import

Deltek Defect Tracking Number:

164533

Issues Resolved:

Description: If your firm uses Connect for Microsoft Outlook and you tried to import Info Center data using the Data Import utility, you received an error when you clicked **Import**, and the import failed.

Impact: This defect only affects Vision clients using Connect for Microsoft Outlook.

Workaround: None.

Additional Notes/Comments: None.

Files Updated:

Deltek.Vision.ImportUtility.Client.dll

Billing/Interactive Billing

Deltek Defect Tracking Number:

165235

Issues Resolved:

Description: If your number format in Regional and Language Options in Windows Control Panel uses a period as the thousands separator (such as the German (Germany) format), Interactive Billing multiplied the number of hours by 10, for a full transfer of hours to the tenth of an hour (10.5 became 105, for example), or multiplied the number of hours by 100, for a full transfer of hours to the hundredth of an hour (1.25 became 125, for example).

If your number format in Regional and Language Options in Windows Control Panel does not use a period as the decimal separator and uses a space as the thousands separator (such as the French (Canada) format), you received an error in Interactive Billing when you tried to transfer hours that were either to the tenth or hundredth of an hour (such as 10.5 or 1.25).

Impact: This defect affects users with the regional settings described above who use Interactive Billing in Vision 6.0 or a later version.

Workaround: None.

Additional Notes/Comments: None.

Files Updated:

Deltek.Vision.interactiveBilling.Client.dll

Other Applications Affected:

\$AppOnly;Billing/Interactive Billing

Desktop/Outlook

Deltek Defect Tracking Number:

165279

Issues Resolved:

Description: When you synchronized Connect for Microsoft Outlook and activities were synchronized, you received an "Internal error when syncing due to erroneous field "Subject1" for CFGActivitySubject picklist" error.

Impact: This defect applies to Connect for Microsoft Outlook.

Workaround: None.

Additional Notes/Comments: None.

Files Updated:

Deltek.Vision.WebServiceAPI.Server.dll

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download and Install the Hot Fix:

1. Log on to the Vision application server and use the Check for Updates utility to download the hot fix.
2. Run the executable (.exe) file on your application server.

To Check If the Hot Fix is Installed:

1. Click **Help > About** from the Vision toolbar.
2. Click the **Details** button on the **About Deltek Vision** dialog box.

More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
