

Attention Costpoint Cloud Customers:

Important information if you are using the VISA/AMEX layout feature:

Deltek's cloud security policy does not allow for storing or transmitting credit card numbers in the Costpoint Cloud. Therefore the VISA/AMEX layout feature is not available in the Costpoint Cloud. Time & Expense 10 customers can utilize the Generic layout feature for processing credit card information in the Costpoint Cloud.

How does this announcement impact my company?

I am using the VISA/AMEX feature on premise and plan to migrate to the cloud.

Your migration plan to the cloud should include implementing the Generic layout feature and discontinue use of the VISA/AMEX layout feature. Deltek will ensure that no credit card information is stored in your database before it is activated in the Deltek Cloud.

I am a T&E9 cloud customer and I am currently using the VISA/AMEX layout feature in the cloud.

Deltek is asking that all Time & Expense 9 cloud customers discontinue use of the VISA/AMEX layout feature. Deltek will require that all customers move to the Generic layout feature when they are upgraded to Time & Expense 10. Deltek is planning to upgrade all T&E9 customers to T&E10 starting in the second half of 2017.

Who do I contact if I have questions?

Please contact your Deltek Customer Success Manager.

Regards,

Deltek Customer Care
