### MATERIALS/INVENTORY/INMMOISS/Enter Manufacturing Order Issues

[Deltek Defect Tracking Number:](#)

976855

[Issues Resolved:](#)

**Description:** When organization security was enabled for Enter Manufacturing Order Issues screen under the Inventory module, the organization security profile assigned to the screen was not applied.

**Customers Impacted:** This defect affects Costpoint users who use the organization security feature.

**Workaround Before Fix:** None.

**Additional Notes:** A new application ID for the Enter Manufacturing Order Issues screen, INMMOISS, has been created in Inventory (IN) module to differentiate from the Enter Manufacturing Order Issues screen in Production Control (PC) module. This change enables you to assign distinct organization security profiles and user rights to each screen. If you access the Enter MO Issues screen via PCMMOISS and your module rights are under the IN module, you now have to set up user rights and profiles for the Enter MO Issues screen using the INMMOISS application ID. However, license for both screens remain under the PC module.
