Description: When you printed the journal in Post Journal Entries, cleared the user in Clear Users, and printed the journal again, an error occurred which prevented you from proceeding. A row was left in POST_SEMAPHORE, and you got locked out.

Customers Impacted: This defect affects Costpoint users.

Workaround Before Fix: Run a script that inserts rows into SEAT_ASSIGNMENT and APPL_LOCKING. It deletes the user from APPL_LOCKING, rolling back the posting using POSTING_TRIGGER.
