Issues Resolved:

Description: There were two issues when you saved a cloned adjusting journal entry (AJE):

- When you saved an AJE, there was an error message which should have been displayed when the journal entry Type is Recurring.
- After an AJE was saved, the Recurring subtask's Ending section had values. The values in the Starting section were altered too after saving.

Customers Impacted: This defect affects you if you manage journal entries in Costpoint.
