

## Deltak Costpoint HotFix Readme

*Release Date: March 28, 2018*

### Include Project End Date on the Unbilled Analysis Report

Costpoint now allows you to include the project end date on the Unbilled Analysis Report (Summary Report and Detail Report) so you can compare the billed amounts with the end of the project and better determine risk situations that need to be addressed.

The Print Unbilled Analysis Report application has been updated for this enhancement. This screen now has the following new options:

- **Summary Report Column Options (Select 2 of 3)** — Use this new group box to specify the information that you want to include on the Summary Report. You can select up to two of the following three options: **Project End Date**, **Project Type**, and **Project Account Group**. **Project Type** and **Project Account Group** are selected by default, but can be modified. When you select **Project End Date**, the other two options are automatically cleared, and you can select either option.

If you already selected **Project Type** in the **Select By** drop-down list, **Project Type** in this group box is automatically cleared and disabled. Similarly, if you selected **Project Account Group** in **Select By**, **Project Account Group** in this group box is automatically cleared and disabled.

- **Detail Report Column Options** — Use this new group box to specify the information that you want to include on the Detail Report. **Project Type** is selected by default, but you can change it to **Project End Date**. You can select only one option.

If you already selected **Project Type** in the **Select By** drop-down list, **Project Type** in this group box is automatically cleared and disabled, and the default selection becomes **Project End Date**.

### Requirement

This enhancement requires cp711\_blrnbil\_008.zip.

More information about this release is on the following page.

## Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Support Center at <https://deltek.custhelp.com> before you install the update.

## To Download the HotFix/Feature Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Support Center credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

## To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Support Center site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

## To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

## To Check to See if the Feature is Installed:

1. Click **Help > About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the PATCHes subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

## More Information:

If you have any questions, please contact Deltek Support Center at <https://deltek.custhelp.com>.
