Vision 6.1 SP4 HotFix Notes

Released: April 04, 2014

Release Name: HotFix #071

Software Enhancements

Updated URL for GovWin IQ Integration

The URLs that Vision uses to communicate with GovWin IQ have been updated to use the current GovWin IQ domain name, rather than the old Input domain name.

Files Updated

Deltek.Vision.InputWebService.Server.dll

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at http://support.deltek.com before you install the hot fix.

To Download the HotFix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix:

Run the executable (.exe) file only on your application server, unless additional tiers are specifically noted in the defect descriptions above.

To Check to See if the HotFix is Installed:

1. Click **Help > About** from the Vision toolbar.
2. Click the **Details** button on the **About Deltek Vision** dialog box.

More Information:

If you have any questions, please contact Deltek support at https://support.deltek.com
