PJ/PI/PJRRE VW/Print Revenue Worksheet

[Deltek Defect Tracking Number:](#)

817129

[Issues Resolved:](#)

Description: The Revenue Worksheet has been modified to include inception-to-date (ITD) funded and contract values that exclude regular modifications with future effective dates. Award fee modifications are excluded based on the fiscal year, start and end periods, and subperiod of the award fee rather than the effective date of the modification:

- Two new columns, Total ITD Value (w/o Future Mods) and Total ITD Funded (w/o Future Mods), have been added to the header of the Revenue Worksheet to reflect the ITD amounts for Cost, Fee, Total, and Award Fee without future modifications. The fields under these columns are populated by the new table, PROJ_MOD_ITD_SUM, with amounts that are unique for the project/fiscal year/period/subperiod combination.
- Columns Total Value and Total Funded on the header of the worksheet are now labeled Total Value (All Mods) and Total Funded (All Mods) to differentiate them from the new columns added for the ITD amounts.

Customers Impacted: This change affects Costpoint users.

Workaround Before Fix: None.

Additional Notes: None.
