Hot Fix: cp711_sys_040.zip; cp711_rcminsp_022.zip

MATERIALS/RECEIVING/RCMINSP/Enter QC Inspections

Deltek Defect Tracking Number:

898541

Issues Resolved:

Description: On the Manage Quality Control Inspections (RCMINSP) screen, you were unable to split lot information when you needed to disposition parts differently.
Customers Impacted: This defect affects Costpoint users who need to split the same lot ID for different rejection dispositions.
Workaround Before Fix: Reject all parts and then use **Return to Vendo** to return the other parts.
Additional Notes: A new logic has been added in Costpoint to allow you to enter non-existing (new) line on the Serial/Lot Info subtask to indicate additional new lot "receiving" transaction line and to allow split of the same lot ID for different rejection dispositions (if needed).
