Deployment Date: 5/26/2019

Hot Fix: cp711_aoputlel_019.zip

OTHERS/PRODUCT INTERFACES/AOPUTLEL/Employee Basic Preprocessor

Deltek Defect Tracking Number:

1092147

Issues Resolved:

Description: The application generated a "Currency cannot be deleted" error when you imported employee data without Record 5 for an existing employee that had **USD** currency code on the Manage Employee Salary Information screen. This issue occurred with the **Deletion Indicator** set to **Asterisk (*)** and with the Multicurrency functionality enabled. The application should not generate an error in this scenario.

Customers Impacted: This defect affects Costpoint users who import employee data from an input file.

Workaround Before Fix: Add record 5 to the CSV file.

Additional Notes: None.

System File Dependencies:

cp711_sys_009.zip

OTHERS/PRODUCT INTERFACES/AOPUTLEL/Employee Basic Preprocessor

Deltek Defect Tracking Number:

1112531

Issues Resolved:

Description: The application did not allow you to import a Record #1 for an existing employee, where a **Rate Type** is **A**, **H**, or **S** and the **Rate** is **0** (zero). If you attempted this, the application generated the following error: "Rate is a required field if a rate type is supplied."

The application allowed importing of new employees with a **Rate Type** of **A**, **H**, or **S** and a Rate of **0.00**, but not existing employees with the same setup.

Customers Impacted: This defect affects Costpoint Employee users.

Workaround Before Fix: None.

Additional Notes: The following should be implemented in the application:

- If you import a record for an existing employee, where the **Rate Type** is **A**, **H** or **S** and the Rate is **0** (zero), the application should set the employee's hourly, salary, and annual amounts to **0.00** in the Manage Employee Salary Information (EMPL_LAB_INFO) record.
- If you import a record with a **0.00** value in the **Rate** column and a NULL value in the **Rate Type** column, the application should treat the **Rate** as a NULL value.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.

6. Click Download at the bottom of the screen.

If you have any questions, please contact Deltek support at https://deltek.custhelp.com.
