Deltek Costpoint Enhancement Readme

Released: January 07, 2015

Enhancement

Negative MO Validation on Timesheets

Timesheet applications were updated to provide validation messages based on the new **Validation** field on the Configure Production Control Setting screen. When the manufacturing order (MO) cost goes negative beyond the specified threshold amount, timesheet applications will check the type of validation selected on the Configure Production Control Settings screen to determine whether to give a hard error, warning, or no validation.

The following Costpoint 7.1.1 screens were affected by this update:

- Import Timesheets (AOPUTLTS)
- Import Timesheets from Deltek Time and Expense (LDPUPET)
- Manage Correcting Timesheets (LDMCTIME)
- Manage Timesheets (LDMTIME)
- Create Retroactive Timesheet Adjustments (LDPRETRO)
- Create Reversing Timesheets (LDPREVTS)
- Recast Overtime Premium to Timesheet Lines (LDPROTP)
- Apply Timesheet Adjustments in Batch Mode (LDPAUTO)

The following Costpoint 7.1.1 patches are included in this update:

- Patch2571.sql
- Patch2576.sql
- Patch2580.sql

Additionally, this update requires Patch2553.sql. You must apply this patch first before you can use any of the affected Costpoint screens.

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at http://support.deltek.com before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, https://deltek.custhelp.com.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help** > **About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at https://support.deltek.com.
