Framework/External Tools/DBWIZARD

Deltek Defect Tracking Number:

613600

Issues Resolved:

Description: The DB Wizard utility is updated such that when applying a hot fix folder with multiple versions of stored procedures for the same application, it will apply only the latest version.**Customers Impacted:** This change affects clients who want to apply multiple versions of the same application.**Workaround Before Fix:** Manually remove the old application hot fix from the folder.**Additional Notes:** The new csbatools.jar and DBWizard.jar are required when you apply the fix.

Framework/External Tools/DBWIZARD

Deltek Defect Tracking Number:

615231

Issues Resolved:

Description: The DB Wizard utility is updated such that when it verifies the extensibility unit and detects that a new extensibility tab has the same tab number as a regular tab in the result set, it will increase the extensibility tab number (to shift it to the end) and do same for all fields on that tab.**Customers Impacted:** This change affects customers who use Extensibility.**Workaround Before Fix:** Manually fix the extension of the result set.**Additional Notes:** The new csbatools.jar is required when you apply the fix.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
