#### **ACCOUNTING/ACCOUNTS PAYABLE/APMSETVR/A\_P Voucher Settings**

[Deltek Defect Tracking Number:](#)

702118

[Issues Resolved:](#)

**Description:** There should have been a setting to allow Accounts Payable vouchers to be created with the 'Unapproved' status in the receiving company when it is created via the Intercompany Work Orders (IWO) process.

**Customers Impacted:** This defect affects you if your company has sales tax or VAT on IWO vouchers.

**Workaround Before Fix:** None.

**Additional Notes:** Sales tax or VAT on IWO invoices are not computed, so the ability to edit the Accounts Payable voucher in the receiving company is critical.

Set Up Company has been updated to include the information on the new check box (**Create A/P Vouchers from Intercompany Work Orders with a Status of Unapproved**) added to the Configure Accounts Payable Voucher Settings screen when creating a new company.

This fix requires PATCH3070.

### Framework

#### Deltek Defect Tracking Number:

713460

#### Issues Resolved:

**Description:** Framework and the following applications are updated to support FIDO security key authentication model:

- Manage Users - A new group box, FIDO Security Key, is added to the 2FA Settings group box with the following options:
  - Enabled - Select this check box to enable the user to authenticate login with FIDO security key.
  - Passwordless - This check box is editable only if you selected Enabled. Select this check box to allow the user to log in to Costpoint with a valid security key only (that is, the user does not need to provide a one-time passcode on the login page).
- Configure User Preferences - A new subtask, FIDO Security Keys (2FA), is now available on this screen. Users for which the FIDO Security Key authentication method has been enabled must access this subtask to register their security key.

**Customers Impacted:** This enhancement affects Costpoint users.

**Workaround Before Fix:** None.

**Additional Notes:** This requires PATCH7109, PATCH7111, and the new security provider (Framework update).

**System File Dependencies:**

N/A

## **MATERIALS/PROCUREMENT PLANNING/PPMRQLN/Requisition Processing by Line**

**Deltek Defect Tracking Number:**

704393

**Issues Resolved:**

**Description:** The application was modified to allow you to specify the quote award reason and the vendor business size when you assign a purchase order (PO) to a requisition line. Two new fields, **Quote Award Reason Desc** and **Business Size**, have been added on the Assign PO subtask.

**Customers Impacted:** This change affects you if you use the Costpoint Procurement Planning module.

**Workaround Before Fix:** None.

**Additional Notes:** None.

**Files Updated:**

## **MATERIALS/RECEIVING/RCMPORC/Receive Purchase Order**

**Deltek Defect Tracking Number:**

709907

**Issues Resolved:**

**Description:** You were unable to assign multiple lot numbers to a purchase order (PO) line receipt when you clicked **Autoload**.

**Customers Impacted:** This defect affects you if you use the Costpoint Receiving module.

**Workaround Before Fix:** None.

**Additional Notes:** None.

N/A

## **MATERIALS/RECEIVING/RCMRTRN/Enter Vendor Returns**

[Deltek Defect Tracking Number:](#)

711648

[Issues Resolved:](#)

**Description:** Vendor return of a serial/lot tracked purchase order (PO) line part inserted a row into PO\_LN\_SERIAL\_LOT instead of just updating existing rows.

**Customers Impacted:** This defect affects you if you do vendor returns of tracked parts which do not have pre-assigned serial/lot numbers on the PO line.

**Workaround Before Fix:** None.

**Additional Notes:** A new row inserted into PO\_LN\_SERIAL\_LOT results in subsequent receiving/inspections transactions autoloading the new pre-assigned serial/lot instead of from Serial/Lot Settings (when system-assigned).

## **MATERIALS/ROUTINGS/RUMWCM/Maintain Work Centers**

[Deltek Defect Tracking Number:](#)

567797

[Issues Resolved:](#)

**Description:** You encountered a system error in Costpoint when you cloned a record with **Maintenance Type** set as **Preventive** or **Calibration**.

**Customers Impacted:** This defect affects you if you use the Costpoint Bills of Materials module.

**Workaround Before Fix:** Create a new record instead of cloning it to save an identical record.

**Additional Notes:** None.

## PEOPLE/EMPLOYEE/LDMEHIS/Salary Info and History

[Deltek Defect Tracking Number:](#)

714828

[Issues Resolved:](#)

**Description:** The application incorrectly recalculated the annual salary amount when you saved a copied record.

**Customers Impacted:** This defect affects Costpoint Employee users.

**Workaround Before Fix:** Manually correct the values on the record. Running the Clone Recent Record process will not update the amounts.

**Additional Notes:** With this hot fix, the recalculate functionality was updated. You now be asked if you would like to recalculate values based on the field that you change if at least one of the other fields has a value.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at <https://deltek.custhelp.com>.
