Deltek Costpoint HotFix Readme

Released: December 18, 2015

Enhancements

Multicurrency Leave Reconciliation – Average Functional Rate Enhancement

The Multicurrency Leave functionality in Costpoint now supports the ability to calculate currency gains and losses when the employee's currency changes. As part of this feature, this release includes the following updates to the corresponding screens:

▪ **Post Leave (LDPLHF)**

The Post Leave screen now populates the new **Average Functional Rate** column in the Manage Beginning Balances (EMPL_LV_BAL) table and in the View Leave History (EMPL_LV_HIST) table.

▪ **Close Leave Year (LDPLYCLS)**

The Close Leave Year screen now populates the **Average Functional Rate** column in the Manage Beginning Balances (EMPL_LV_BAL) table.

▪ **True-Up Leave History Table (LDPLVTRU)**

The True-Up Leave History Table now populates the new **Average Functional Rate** column in the Manage Beginning Balances (EMPL_LV_BAL) table and in the View Leave History (EMPL_LV_HIST) table

▪ **View Leave History (LDQLHF)**

The new **Average Functional Rate** column is now available in the View Leave History (EMPL_LV_HIST) table.

> This Multicurrency Leave Reconciliation enhancement involves updates to multiple applications which are released in different dates. This feature will be functional when enhancements to all affected applications are available.

System JAR and Patch Requirements

These enhancements require the following Costpoint 7.1.1 releases:

▪ Costpoint 7.1.1 SYSTEM JAR 012

▪ PATCH2703

▪ PATCH2780

Application JAR Requirements

The following table shows the required application JAR version for each screen affected by this update:

Domain	Module	Application ID	Application Name	Application JAR
PE	LV	LDPLHF	Post Leave	cp711_ldplhf_003.jar
PE	LV	LDPLYCLS	Close Leave Year	cp711_ldplycls_006.jar
PE	LV	LDPLVTRU	True-Up Leave History Table	cp711_ldplvtru_003.jar
PE	LV	LDQLHF	View Leave History	cp711_ldqlhf_002.jar

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at http://support.deltek.com before you install the update.

To Download the HotFix Update:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, https://deltek.custhelp.com.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.

- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.

- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.

2. Click **Help** > **About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

More Information:

If you have any questions, please contact Deltek Customer Care at https://support.deltek.com.
