PEOPLE/LABOR/LDPLDJ/Post Labor Distribution

[Deltek Defect Tracking Number:](#)

714813

[Issues Resolved:](#)

Description: When you posted timesheets several times in a row and then you printed a journal that had errors in the report, the application locked you out.

Customers Impacted: This defect affects Costpoint Labor users.

Workaround Before Fix: Use any of following workarounds:

- Use the Print/Post action instead. This action completes the posting; however, you will not receive printed report for review.
- If the report fails to print and you want to start over, you can log out of Costpoint. This clears the session and will roll back the posting as long as the application has not inserted records into the General Ledger (GL).
- Clear the user's session using Clear Users (SYMCLR) and then log out of Costpoint and log back in. This will create a new session for the user; and Post Timesheets (LDPLDJ) will insert the row into APPL_LOCKING. In this case, a user might not be aware that someone else cleared their session which could lead to some confusion.

Additional Notes: None.

cp711_sys_023.zip

cp711_pjpprep_012.zip

System File Dependencies:

cp711_patch3012_001.zip

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:
