Deployment Date: 11/22/2016

Hot Fix: cp711_symcmict_003.zip

OTHERS/SYSTEM ADMINISTRATION/SYMCMICT/Enter or Manage Content Types

Deltek Defect Tracking Number:

614166

Issues Resolved:

Description: A new subtask, Import Linked Content Files, added to this screen allows you to migrate linked content files from one content type to another.

Customers Impacted: This enhancement affects clients who are retiring their old content management system (CMS) and moving content to a new repository.

Workaround Before Fix: Use multiple content type locations. This makes old and new locations associated with the same content type and all links (old and new) functional.

Additional Notes: See "Appendix 3: Migrating Content to a New CMS Server" of the *Deltek Costpoint 7.0.1 Content Management Integration* document for more information.

Files Updated:

cp711_symcmict_003.zip

System File Dependencies:

cp711_sys_006.zip

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
