Deployment Date: 8/12/2015

Hot Fix: DeltekCostpoint711FrameworkUpdate009.exe; cp711_sys_009.zip

Framework

Deltek Defect Tracking Number:

522334

Issues Resolved:

Description: When a user account has been deactivated, only the Deactivation Date (DE_ACTIVATION_DT) was updated and not the TIME_STAMP and MODIFIED_BY columns. **Customers Impacted:** This defect affects Costpoint users. **Workaround Before Fix:** None. **Additional Notes:** Upon log on, Costpoint checks the number of days the user has been inactive and validates it against the value in the Disable Inactive Users Period (Days) field on the Configure System Settings (SYMSETNG) screen. If it exceeds the number of days set, the user account is deactivated. The hot fix now updates the following columns when a user account is deactivated:

- DE_ACTIVATION_DT
- TIME_STAMP
- MODIFIED_BY

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at https://deltek.custhelp.com.
