

**Deployment Date: 6/27/2016**

**Hot Fix: cp711\_patch2919\_001.zip; cp711\_smmwrk\_002.zip**

## **PJ/SM/SMMWRK/Manage Work Assignments**

**Deltek Defect Tracking Number:**

591309

**Issues Resolved:**

**Description:** Several updates have been made to the Business Rules tab of the Manage Work Assignments screen, as follows:

- The Work Assignment Charging Validation Rules group box has been renamed to Charging Validation Rules in T&E.
  - Under this group box, some fields have been reordered.
  - The following fields have been removed: Allow Entered Hours over Charge Line/Vendor Employee Hours and Allow Charges over Charge Line/Vendor Employee Amount.
- A new group box, Create Subcontractor Invoices, is added to contain the rules that the Create Subcontractor Invoices process will use for validation and the default unallowable accounts.
  - Validation Rules - This new group box has three new check boxes that default from the Configure Subcontractor Management Settings screen.
  - Default Accounts - This new group box contains two fields that default from the Configure Subcontractor Management Settings screen.
    - Unallowable Labor Account - This field was previously labeled Unallowable Vendor Employee Labor Account.
    - Unallowable Expense Account - Use this new field to enter an allowable expense account. If the subcontractor vendor employee charges expenses in excess or outside the period of performance, the amount in excess will be reclassified to the unallowable expense account specified on the charge line.

**Customers Impacted:** These changes affect users of the Subcontractor Management module.

**Workaround Before Fix:** None.

**Additional Notes:** None.

**Files Updated:**

Patch2919.sql

cp711\_smmwrk\_002.jar

**System File Dependencies:**

cp711\_sys\_018.zip

**Custom Programs Affected:**

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

**To Download the Hot Fix:**

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

**More Information:**
