

Deployment Date: 9/17/2019

Hot Fix: cp711_ldplhf_016.zip

PEOPLE/LEAVE/LDPLHF/Post Leave Accruals

Deltek Defect Tracking Number:

1165096

Issues Resolved:

Description: The Post Leave process should never pull any projects, accounts and organizations from the Employee Leave Journal (EMPL_LV_JNL) table.

When you posted a leave adjustment (with a record type of ADJUST, created by the Import Employee Leave Adjustments screen) for an employee, and the leave type/leave code did not exist (or was not assigned) in employee's leave and leave beginning balances, the posted record was missing values in the following Employee Leave Balance (EMPL_LV_BAL) columns:

- EXPNS_ACCT_ID
- EXPNS_PROJ_ID
- ACCRL_ACCT_ID
- ACCRL_PROJ_ID

Customers Impacted: This defect affects Costpoint Leave users.

Workaround Before Fix: Assign the leave type/leave code to employee first before importing leave adjustment.

Additional Notes: None.

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at <https://deltek.custhelp.com> before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
