### **CG/CN/CNQCTF/View Contract Financial Information**

**Deltek Defect Tracking Number:**

1010184

**Issues Resolved:**

**Description:** When users tried to save records in Manage Contracts using the **Save & Continue** function, a performance issue occurred due to the way that the application retrieves financial information. Several screens have been updated, and a new application has been created to resolve this issue. The new application, View Contract Financial Information (CNQCTF), can be accessed through **Contracts > Contracts > Contract Reports and Inquiries > View Contract Financial Information**. Use this screen to view financial information on contracts without printing a report. You can view contract and funded values as well as inception-to-date (ITD) amounts for the contracts. In the Contract Financial Information table window on this screen, the **Contract ID** and **Opportunity ID** field values are displayed as hyperlinks that you can click to open the Manage Contracts or Manage Opportunities screen to see more details about the contract/opportunity.

**Customers Impacted:** This change affects users of the Contract Management feature in Costpoint.

**Workaround Before Fix:** None.

**Additional Notes:** None.
