PJ/BP/BPPETCUP/Update Incurred Costs for Project Budgets

Deltek Defect Tracking Number:

464915

Issues Resolved:

Description: A new check box, **Exclude Fee from Incurred Costs**, was added to the Update Incurred Costs for Project Budgets screen to give users an option to include or exclude fee from incurred cost calculations.
Customers Impacted: This enhancement affects Advanced Project Budgeting users in Costpoint 7.1.1.
Workaround Before Fix: None.
Additional Notes: The Manage Project Budgets and ETC application was modified in line with the change for the Update Incurred Costs for Project Budgets screen. On the ETC subtask, the **Exclude Fee from Incurred Costs** check box was added to the Update Incurred Costs subtask.

Deltek Defect Tracking Number:

464916

Issues Resolved:

Description: The calculation of incurred costs for advanced project budgeting included accounts that were not in the project account group (PAG).
Customers Impacted: This defect affects Advanced Project Budgeting users in Costpoint 7.1.1.
Workaround Before Fix: Add missing accounts to the PAG with the correct function code, and mark them as "Active = N" in the PAG. If necessary, do AJEs (while the PAG still shows those accounts as "Active = Y") to move the costs from the wrong account to the correct account.
Additional Notes: When you delete accounts from PAGs or assign different PAGs to a project where the new PAG does not have all the accounts that were charged from the original PAG, the amounts from the missing accounts will be duplicated when you run Update Incurred Costs for Project Budgets.
