

Deltak Costpoint Enhancement Readme

Release Date: May 27, 2016

Support for the New Revenue Standard – Phase I

Compute Revenue (PJPCOMPR)

This application now captures audit log data from various revenue setup tables and populates the new audit tables with values from the setup tables for each project, fiscal year, period, subperiod, and other applicable fields. This application writes records for any revenue level of a project that is computed. Records may be written at a higher level of the project if any applicable ceilings or overrides are set up at a higher level (for example, burden overrides), or at a lower level of the project if any direct cost ceilings, hours ceilings, or total ceilings are set up at a lower level.

The following table lists the revenue setup tables from which Compute Revenue captures audit log data, and the new audit tables where new record values are stored. The new audit tables will usually have the same format and field names as the source setup tables, with the addition of the **Fiscal Year**, **Period**, and **Subperiod** fields, although there are a couple of audit tables in which the source table data is summarized.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the HotFix/Feature Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
