Deployment Date: 1/12/2016

Hot Fix: cp711_aoputlel_007.zip

OTHERS/PRODUCT INTERFACES/AOPUTLEL/Employee Basic Preprocessor

Deltek Defect Tracking Number:

549115

Issues Resolved:

Description: The Import Employee Data process updated the **Estimated Annual Hours** field in Salary Information even though the import file did not contain any **Estimated Annual Hours** values. This issue also occurred even though **Estimated Annual Hours** is an optional field in the import.

Customers Impacted: This defect affects Costpoint users who import employee records.

Workaround Before Fix: Manually change the **Estimated Annual Hours** field value after the import.

Additional Notes: The **Estimated Annual Hours** field was being populated by the hours in **Number of Work Hours in a Year** field on the Configure Labor Settings screen. When you run the import, the process populated the **Work Hours in a Year** and the **Estimated Annual Hours** with the value in the **Number of Work Hours in a Year** field on the Configure Labor Settings screen.

System File Dependencies:

cp711_sys_009.zip

OTHERS/PRODUCT INTERFACES/AOPUTLEL/Employee Basic Preprocessor

Deltek Defect Tracking Number:

553399

Issues Resolved:

Description: The application deleted vendor Electronic Fund Transfer (EFT) information for previously imported employees that had vendor EFT information manually entered. This occurred when the input file included the previously uploaded employee along with new employee imports.

Customers Impacted: This defect affects Costpoint users who import employee records.

Workaround Before Fix: None.

Additional Notes: None.

OTHERS/PRODUCT INTERFACES/AOPUTLEL/Employee Basic Preprocessor

Deltek Defect Tracking Number:

557533

Issues Resolved:

Description: A fatal error occurred when you imported employee data. The error contained the following message: "Fatal error: StringIndexOutOfBoundsException: String index out of range: -2-----java.lang.StringIndexOutOfBoundsException: String index out of range: -2."

Customers Impacted: This defect affects Costpoint users who import employee records.

Workaround Before Fix: Manually add employee updates.

Additional Notes: None.

OTHERS/PRODUCT INTERFACES/AOPUTLEL/Employee Basic Preprocessor

Deltek Defect Tracking Number:

566672

Issues Resolved:

Description: When the Multicurrency functionality was not enabled, the application inserts a blank (NULL) value in the **Transaction Currency** field on the Manage Employee Salary Information screen.

Customers Impacted: This defect affects Costpoint users who do not use Multicurrency functionality.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.
