[Issues Resolved:](#)

**Description:** If an employee's first or last name contained more than one hyphen or space, the name prints on three separate lines within the box, but the last line is cut so that only the top half of the last part of the name is printed.

**Customers Impacted:** This defect affects Costpoint users who print the 1095-C report for Affordable Care Act (ACA) compliance.

**Workaround Before Fix:** None.

**Additional Notes:** The second CYE2018 release in January 2019 will correct this issue by treating the hyphenated or space-delimited name as one string, rather than separate values to be printed on separate rows within the box. Any names that don't fit on one line within the box will be wrapped.
