

Deltak Costpoint HotFix Readme

Release Date: March 21, 2017

Account Function Code Description in View Project Ledger Activity

The account function code description (**S_ACCT_FUNC_DC**) has been added to the Project Ledger Inquiry table window of the View Project Ledger Activity screen. With this new field, you can determine how an account is being used for the project you are reviewing.

If the account displayed in the Project Ledger Inquiry table window and all its sub-accounts in the same project account group have the same account function code description, **S_ACCT_FUNC_DC** displays that account function code description. If the account and its sub-accounts have different account function code descriptions, **S_ACCT_FUNC_DC** displays **Various**, and the **S_ACCT_FUNC_DC** field becomes visible on the Detail subtask, where you can view the specific account function code descriptions of the sub-accounts. The new field on the Detail subtask does not display if **S_ACCT_FUNC_DC** on the main screen is not **Various**. If the account has been removed from the project account group, **S_ACCT_FUNC_DC** displays **Missing**.

This enhancement requires cp711_pjqprojl_003.zip.

More information about this release is on the following page.

Custom Programs Affected:

Sometimes an update can cause custom programs and reports to stop working as expected. Before applying this update, consider whether you have any custom programs or reports in the application area affected by the update. If so, contact Deltek Customer Care at <http://support.deltek.com> before you install the update.

To Download the HotFix/Feature Update:

1. From Internet Explorer, go to <https://dsm.deltek.com>.
2. Click **Run Deltek Software Manager**.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hot Fixes folder for your product, and select the update to download.
6. Click **Download** at the bottom of the screen.

To Install the HotFix/Feature Update:

Refer to the installation instructions posted on Deltek's Customer Care Connect site, <https://deltek.custhelp.com>.

- For Costpoint 7.1.1 updates, refer to Knowledge Base article 79232.
- For Costpoint 7.0.1 updates, refer to Knowledge Base article 73769.
- For Costpoint 7.0 updates, refer to Knowledge Base article 67722.

Before you install this update, please review all previous updates in the Knowledge Base article. You may need to install prerequisite programs or database patches (described in the Knowledge Base article) prior to installing this update. Note that when you download an update using Deltek Software Manager (DSM), all dependent files are automatically downloaded.

To Check to See if the HotFix is Installed:

1. Open the application that was updated.
2. Click **Help > About Costpoint** from the Costpoint toolbar. This will display a screen that shows you the latest update JAR for the application that is open, as well as the latest system JAR and all patches applied to the system.

To Check to See if the Feature is Installed:

1. Click **Help > About Costpoint** from the Costpoint toolbar.
2. Open the Features subtask and click the Feature that was just installed.
3. Open the Applications subtask. Check the list of applications and their corresponding application jars and see if they are correct and have been successfully deployed (highlighted in green).
4. Open the Patches subtask. Check the list of patches and see if they are correct and have been successfully deployed (highlighted in green).

More Information:

If you have any questions, please contact Deltek Customer Care at <https://support.deltek.com>.
