Deployment Date: 6/24/2019

Hot Fix: cp711_sys_054.zip; cp711_patch3675_001.zip

ACCOUNTING/ACCOUNTS PAYABLE/APMVEND/Maintain Vendors

Deltek Defect Tracking Number:

1116928

Issues Resolved:

Description: An error occurred when you deleted a vendor that has record in the NAICS table window on the Vendor Classification subtask.

Customers Impacted: This defect affects you if you use the Manage Vendors screen in Costpoint.

Workaround Before Fix: Delete the record in the NAICS table window and click on Save before deleting the vendor record.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

Patch3675.sql

ACCOUNTING/ACCOUNTS PAYABLE/APMVEND/Maintain Vendors

Deltek Defect Tracking Number:

1125663

Issues Resolved:

Description: An error occurred when you saved a cloned vendor record.

Customers Impacted: This defect affects you if you clone vendor records in Costpoint.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

ACCOUNTING/ACCOUNTS PAYABLE/APMVEMPL/Manage Vendor Employees

Deltek Defect Tracking Number:

1127456

Issues Resolved:

Description: The status messages in the Vendor Employee ID fields were incorrect.

Customers Impacted: This defect affects you if you manage vendor employees in Costpoint.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

Framework

Deltek Defect Tracking Number:

1106849

Issues Resolved:

Description: When you copied values from Excel and pasted them using the Find & Replace feature, values did not format properly and an extra space was added.

Customers Impacted: This defect affected customers who used Firefox.

Workaround Before Fix: Manually edit the fields.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

Framework

Deltek Defect Tracking Number:

1110847

Issues Resolved:

Description: Costpoint accepted Account Names greater than 25 characters when the row was copied from Excel. The following error message occurred: com.deltek.enterprise.application.gl.glmact.GlmactLineValidation.validateRow-----Maximum precision is exceeded for the field ACCT_NAME on.....

Customers Impacted: This defect affected Manage Accounts (GLMACT) users.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

Framework

Deltek Defect Tracking Number:

1116577

Issues Resolved:

Description: Lookup did not insert a value when you tried to link a new content file in the View Vendor History Inquiry (APQVENDH) application.

Customers Impacted: This issue affected customers who use content management integration.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

Framework

Deltek Defect Tracking Number:

1128243

Issues Resolved:

Description: When you used the Classic UI with autoposition turned off, the Include listbox became invisible after it resized in the Mass Add Project Master Data application.

Customers Impacted: This issue affected all Costpoint 7.1.1 users.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

Framework/External Tools/SecurityProvider

Deltek Defect Tracking Number:

1107958

Issues Resolved:

Description: A new FIDO Single Sign On check box is added to the Authentication Combo section on the Manage Users (SYMUSR) application. Also, the number of default authentication options are expanded in Configure System Settings (SYMSETNG) to match the authentication options supported in the Manage Users application. You can select the default authentication options if you do not want to auto-create user accounts. The defaults are now automatically applied in Manage Users when you add a new record.

Also, on the Security Settings tab, in the Corporate Settings section in Configure System Settings, there is a new URL Valid For field to set the length of time self-service e-mails (capability URLs) can be valid.

Customers Impacted: This enhancement affects Costpoint 7.1.1 users.

Workaround Before Fix: Not applicable.

Additional Notes: The following files are required:

- PATCH7173
- PATCH7172
- PATCH3677
- CPWebSecurityProviders.jar

Patch7173.sql

Patch7172.sql

Patch3677.sql

Framework/External Tools/SecurityProvider

Deltek Defect Tracking Number:

1130715

Issues Resolved:

Description: Costpoint is updated to support better security options for FIDO self registration by verifying a temporary pin instead of email.

Customers Impacted: This enhancement affects all Costpoint 7.1.1 users.

Workaround Before Fix: None.

Additional Notes: The following files are required:

- CPWebSecurityProviders.jar
- cp711_sys_054.zip
- PATCH7173

Files Updated:

CPWebSecurityProviders.jar 351 KB 6/10/2019 12:17pm

cp711_sys_054.zip

Patch7173.sql

Framework/Runtime/Server

Deltek Defect Tracking Number:

1108828

Issues Resolved:

Description: An error showed a null pointer exception when a client invoked workflow for an application with extensibility.

Customers Impacted: This issue affected all Costpoint 7.1.1 users.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

Framework/Runtime/Server

Deltek Defect Tracking Number:

1128844

Issues Resolved:

Description: When you used Content Management integration, Sharepoint Property Names that contained a space were internally stored with _x0020_, instead of the space character. Recent changes did not consider this and caused errors in the metadata view.

Customers Impacted: This issue affected Costpoint 7.1.1 CMI users.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

Framework/Runtime/Server

Deltek Defect Tracking Number:

1128927

Issues Resolved:

Description: A client experienced random HTTP 401 connectivity error to Sharepoint from individual nodes in a large Costpoint cluster. Internal Java caching of the NTLM connection was disabled in an effort to eliminate this error.

Customers Impacted: This issue affected only clients using clustered Costpoint with many nodes and with Sharepoint on premises using Windows Authentication (NTLM).

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

MATERIALS/MATERIAL REQUIREMENTS PLANNING/MRPFPO/Firm Planned Orders

Deltek Defect Tracking Number:

1103021

Issues Resolved:

Description: When you used common stock parts, Costpoint reflected the correct manufacturing order (MO) requirements, but there was no entry for the MO requirement routings.
Customers Impacted: This defect affects Costpoint users.
Workaround Before Fix: None.
Additional Notes: None.

Files Updated:

cp711_sys_054.zip

MATERIALS/MATERIAL REQUIREMENTS PLANNING/MRPFPO/Firm Planned Orders

Deltek Defect Tracking Number:

1104505

Issues Resolved:

Description: Costpoint was unable to generate a unique component reference number for each order generated by the Material Requirements Planning process.

Customers Impacted: This defect affects you if you enter manufacturing order issues in Costpoint.

Workaround Before Fix: None.

Additional Notes: None.

Files Updated:

cp711_sys_054.zip

MATERIALS/PRODUCTION CONTROL/PCPMRR/Process Material Requirements

Deltek Defect Tracking Number:

1119278

Issues Resolved:

Description: When you created a manufacturing order using an operational bills of material (BOM), either manually or MRP-generated, backflush parts that appeared on both the assembly and a phantom sub-assembly zeroed out the **Reservation** and **Quantity to Issue** in the MO requirements.
Customers Impacted: This defect affects Costpoint users.
Workaround Before Fix: None.
Additional Notes: None.

Files Updated:

cp711_sys_054.zip

MATERIALS/PRODUCT DEFINITION/PDMPART/Maintain Parts

Deltek Defect Tracking Number:

1108910

Issues Resolved:

Description: The query for the lookup in the **Text** field was limited to only 20 characters. This happened when there's a Costpoint validated field.
Customers Impacted: This defect affects Costpoint users.
Workaround Before Fix: Enter the value manually without using the query.
Additional Notes: None.

Files Updated:

cp711_sys_054.zip

MATERIALS/PRODUCT DEFINITION/PDMPART/Maintain Parts

Deltek Defect Tracking Number:

1114803

Issues Resolved:

Description: Even though all of the required user-defined information have been loaded, you encountered the following error when you changed a value and clicked Save: User-Defined info is required for a part. Please use the the User_Defined Subtask to enter a value.
Customers Impacted: This defect affects Costpoint users.
Workaround Before Fix: Disable required UDF.
Additional Notes: None.

cp711_pdmpart_035.zip

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:

If you have any questions, please contact Deltek support at https://deltek.custhelp.com.
