Hot Fix: cp711_ldpclhf_017.zip

PEOPLE/LEAVE/LDPCLHF/Compute Leave Accruals

Deltek Defect Tracking Number:

953206

Issues Resolved:

Description: When leave accrual was based on the number of hours worked by the employee (compute methods H, E & U), the reversal (RV) timesheets generated from Create Reversing Timesheets application were not included in the hours-basis. The RV timesheets should be included if the reference date (TS_HDR.CORRECTING_REF_DT) is in the leave period. The application should process RV-type timesheets the same way as N-type timesheets.

Customers Impacted: This defect affects Costpoint Leave users.

Workaround Before Fix: None.

Additional Notes: None.
