**PEOPLE/LABOR/LDPWORK/Mass Update Work Schedules**

Deltek Defect Tracking Number:

858511

Issues Resolved:

**Description:** The application split the work schedule description in two when the description contained a comma. This occurred even though the value was enclosed in double quotation marks. This splitting caused the values to be assigned incorrectly and validation errors occurred for the particular work schedule. As a result, the work schedule did not get imported.

**Customers Impacted:** This defect affects Costpoint Labor users.

**Workaround Before Fix:** None.

**Additional Notes:** None.
