System File Dependencies:

cp711_sys_025.zip

PEOPLE/LABOR/LDPUPET/Upload from Time Collection (ET)

Deltek Defect Tracking Number:

821344

Issues Resolved:

Description: When timesheet line type was **M**, and a PLC was linked to the labor operation for the timesheet line MO/Operation Sequence, and the manufacturing order's Build-To project;

the PLC for the project/labor operation combination was not defaulting.

Customers Impacted: This defect affects Costpoint users who import timesheets from Deltek Time and Expense.

Workaround Before Fix: Override the employee's defaulting PLC with the correct PLC by manually loading the manufacturing order data (before timesheets were posted through Labor Distribution).

Additional Notes: None.

Files Updated:

cp711_cmnlib_TSIMPORT_003.zip

cp711_sys_025.zip

Custom Programs Affected:

Sometimes a hot fix can cause custom programs and reports to stop working as expected. Before applying this hot fix, consider whether you have any custom programs or reports in the application area affected by the hot fix. If so, contact Deltek support at https://deltek.custhelp.com before you install the hot fix.

To Download the Hot Fix:

1. From Internet Explorer, go to https://dsm.deltek.com.
2. Click Run Deltek Software Manager.
3. Log in using your Deltek Customer Care Connect credentials.
4. In the left pane of the Deltek Software Manager, expand your Deltek product.
5. Expand the Hotfix folder for your product, and select the hotfix to download.
6. Click Download at the bottom of the screen.

More Information:
