Overview

Welcome to Deltek Costpoint 8.0.24 Release Notes. These release notes contain a summary of the following:

- Enhancements
- Software Issues Resolved

These release notes address all of the modules associated with Deltek Costpoint 8.0.24, some of which your firm may not use. Skip the sections that do not apply to your implementation of Deltek Costpoint.

New Release Notes Format

Costpoint Release Notes are now delivered in HTML format and can be viewed at this link: <https://help.deltek.com/product/Costpoint/8.0/ReleaseNotes>. This web page contains links to the Release Notes for each release version as well as links to the Costpoint online help, Costpoint Information Center (CIC), and Costpoint Cloud Information Center (CCIC).

We will continue to provide PDFs for the next few releases as we transition to the new format.

If you have feedback or questions, please send an email to DeltekDocumentationFeedback@deltek.com.

Installation Notes

The MR installer reads all Costpoint systems selected. If a Time & Expense segment exists, the installer searches for the presence of a Time & Expense license in that Costpoint system, and lists any systems for which there is no Time & Expense license.

If a prompt displays, review the list and select the appropriate action:

- Using the Apply License utility in the Costpoint DB Wizard, apply a Time & Expense license to the Costpoint system(s) in the list for which the connected Time & Expense segment is not for a stand-alone, external connection that should have a Time & Expense license applied to it.
Any stand-alone, external Time & Expense segments for which a Time & Expense license is not present, or for which the Time & Expense segment is for a Time & Expense 901 system, will not have the MR Time & Expense patches, SPs, or Data Dictionary files applied to them. These Time & Expense segments are marked as External TESS segments.
- If all the systems listed are actual stand-alone, external (non-licensed) Time & Expense segments and you want them converted to external segments without applying the MR to them, click **OK** to proceed.

If you are unsure, please contact Deltek Costpoint Technical Support.

Enhancements

This section includes summaries of the enhancements made to existing features in this release.

Regulatory

State

Idaho 2022 Tax Table Update

Idaho's 2022 withholding methods were released by the state tax commission. The percentage method implements tax rate cuts in a bill (H.B. 436). The bill reduced the number of tax rates used to four instead of five and reduces the highest rate used to 6%, instead of 6.5%. Other updates include the following:

- The zero-percent tax bracket's upper threshold increased from \$12,550 to **\$12,950** for single employees and heads of households and from \$25,100 to **\$25,900** for married employees.
- The value of Idaho Child Tax Credit Allowance increased from \$3,154 to **\$3,417** annually.
- The tax rate for supplemental payments decreased from 6.5% to **6%**.

To support the state requirements, this release applies changes to the following screens:

- Manage State Tax Tables
- Manage State Standard Deductions
- Manage State Taxes
- Manage State Tax Withholding Adjustments

Attention: For more information, refer to:

- https://tax.idaho.gov/pubs/EPB00744_06-15-2022.pdf
- <https://tax.idaho.gov/i-1026.cfm?seg=compute>

Note: This enhancement requires patch dbc_800_10937.

Software Issues Resolved

Descriptions of Software Issues

You will notice that the descriptions of some software defects contain extra information, including ways to work around the defects. For the most part, these issues were addressed before this release through hot fixes, and the additional information was developed to help you decide whether or not you needed to install the hot fixes.

When you install this release, you must install all fixes in the release; you cannot choose to install some and not others. Nevertheless, this additional information has been included in case you instituted some of the workarounds and can now stop using them, or you simply want more background information about the defect repairs.

Admin

[Workflow » Approval Workflow Models](#)

Defect 1686974: A system error occurred when you left the Edit Activity > Updates/Condition subtask line blank and you selected **Test Mode** before saving the workflow process.

Framework

[External Tools » XTDESIGNER](#)

Defect 1701356: A NullPointerException error occurred when you used the Required Formula option in the Extensibility Designer.

Materials

[Purchasing » View Purchase Order Status](#)

Defect 1691194: When you created a multicurrency purchase order (PO) in the EUR database, the system computed the Open Amount for a three-way match PO using functional currency instead of transactional currency.

[Receiving » Manage Quality Control Inspections](#)

Defect 1696774: Two new hidden fields (table), S_INVT_TRNS_TYPE_INSP and INVT_TRN_LN_KEY_INSP, have been added to the Serial/Lot Info subtask to store the quality control inspection key and transaction type, and to link these to the Customer Managed Inventory (CMI) setup.

People

[Benefits » Create 1094-C and 1095-C Data](#)

Defect 1618580: The application did not generate ACA 1095-Cs for non-full-time employees that did not have a code of **1G** in line 14 and a code of **2B** in line 16.

If you opt to not install this update, as a workaround, you can manually generate the 1095-C or perform the following steps:

1. Run the Analyze Full-Time Equivalent Eligibility process with the **Include Part-Time Employees** check box selected.
2. On the Manage Full-Time Equivalent Eligibility screen, query the part-time employees, select the following options, and save the record.
 - **Full-Time Equivalent** check box
 - **Life Event** as the **Enrollment Method**
3. Run the Create 1094-C and 1095-C Data process for the part-time employees.

Labor » Manage Pay Type Restrictions

Defect 1697473: A system error displayed when you saved a new pay type restriction record. This occurred when the synthetic key value in the database (SEQ_GENERATOR.LAST_KEY) was more than four digits.

Planning

Project Budgeting » Project Budgets / EACs

Defect 1567708: Amounts from the Rev Info » Revenue Adjustments subtask (**Projects » Project Setup » Project Master » Manage Project User Flow**) did not display in the Revenue Adjustment column of the Revenue Setup/Ceilings » Revenue Ceilings subtask.

Defect 1664124: When **Hourly Rates to Use** was set to **Period Rates**, the rates for salaried employees did not calculate correctly.

Projects

Project Setup » Manage Project User Flow

Defect 1695916: The system inconsistently displayed an error message when you tried to insert an Org History row without an owning organization change. On the Manage Project User Flow screen, an error message displayed only when you inserted a new row on the Org History subtask in Table view and tabbed out of the **Retroactive** field. In the Costpoint Web Interface Console (WIC), no error message displayed when you attempted to insert an Org History row without an owning organization change.

Time & Expense

Expense » Print Expense Authorizations

Defect 1692912: When you printed an Expense Authorization report, the UDT09 description displayed instead of the code.

Appendix: For Additional Information

Deltek Support Center

The Deltek Support Center is a support web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Deltek Support Center provides:

- Search for product documentation, such as release notes, install guides, technical information, online help topics, and white papers
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Support Center Community
- Access Cloud-specific documents and forums
- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes
- Initiate a Chat to submit a question to a Customer Care analyst online

Attention: For more information regarding Deltek Support Center, refer to the online help available from the web site.

Access Deltek Support Center

To access the Deltek Support Center:

1. Go to <https://deltek.custhelp.com>.
2. Enter your Deltek Support Center **Username** and **Password**.
3. Click **Login**.

Note: If you forget your username or password, you can click the **Need Help?** button on the login screen for help.

About Deltek

Better software means better projects. Deltek delivers software and information solutions that enable superior levels of project intelligence, management and collaboration. Our industry-focused expertise makes your projects successful and helps you achieve performance that maximizes productivity and revenue. www.deltek.com
